QUESTION 1

A network architect is designing a new wireless solution for a company. The company needs seamless roaming and client and AP active load balancing. The company also requires an Aruba Mobility Master (MM) to manage the wireless infrastructure. Which Aruba feature does the architect need to include in the design?

- A. Clustering
- B. AirMatch
- C. Client Match
- D. IAP VC

Correct Answer: A

QUESTION 2

A customer has some employees that travel to various locations, where these employees will need Wi-Fi access at these locations. Because many of these locations do not have wireless support, the employees will need to carry an AP

solution with them. Internet connectivity, if it doesn't exist at these locations, will be provided by a national phone company USB wireless card which will be connected to AP. The wireless solution needs minimal bandwidth, but needs to

minimally support 802.11ac wave 1 devices.

Which Aruba AP wireless solution would meet the needs of these employees most effectively and cost efficiently?

- A. 318
- B. 303H
- C. 365
- D. 203R

Correct Answer: D

QUESTION 3

A high-end theater venue will be implementing an Aruba wireless solution using ceiling- and wall-mounted APs. The venue wants to ensure the APs blend into the ceiling and wall environments. What solution should the customer use to ensure that wireless coverage is not hampered?

- A. Place the APs above the ceiling and behind the walls
- B. Place a strip of tape over the LEDs
- C. Order Aruba AP covers for the APs
- D. Paint the APs to match the ceilings or walls

Correct Answer: A

QUESTION 4

A network architect wants to estimate the number of Aruba APs that will be needed for a new wireless design and determine the wireless coverage using VisualRF. The company requires a high-density design. The building has 200,000 square feet.

How many APs should the network architect add to VisualRF in order to perform the coverage analysis?

- A. 40
- B. 80
- C. 60
- D. 100

Correct Answer: C

QUESTION 5

Which feature does the Aruba AP 555 support? (Select three.)

- A. 802.11ac and lower standards only
- B. desk wall plate mounted
- C. three radios
- D. weather proof and temperature hardened
- E. high density indoor locations

Correct Answer: ACE
