QUESTION 1

Refer to the exhibit.

| Customize Self-Registration | |
|--|---|
| Login Options controlling logging in for self-registered guests. | |
| Enabled: | Enable guest login to a Network Access Server |
| * Vendor Settings: | Aruba Networks <small>Select a predefined group of settings suitable for standard network configurations.</small> |
| Login Method: | Controller-initiated — Guest browser performs HTTP form submit <small>Select how the user's network login will be handled. Server-initiated logins require the user's MAC address to be available, usually from the captive portal.</small> |
| * IP Address: | captiveportal-login.testsite.com <small>Enter the IP address or hostname of the vendor's product here.</small> |
| Secure Login: | Send cleartext passwords over HTTP <small>Select a security option to apply to the web login process.</small> |
| Dynamic Address: | <input type="checkbox"/> The controller will send the IP to submit credentials <small>In multi-controller deployments, it is often required to post credentials to different addresses based on the controller. The address above will be used whenever the parameter is not available or fails the requirement.</small> |
| Security Hash: | Do not check — login will always be permitted <small>Select the level of checking to apply to URL parameters passed to the web login page. Use this option to detect when URL parameters have been modified by the user, for example the</small> |
| Default Destination | |

Based on the self-registration customization, which statements are true? (Choose two.)

- A. The client's browser will submit the credentials in plain text to the controllers.
- B. The user will automatically be logged in when they submit the self-registration form.
- C. The HTTPS certificate on ClearPass has been changed to a wildcard certificate.
- D. The client's browser will submit the credentials encrypted, but over HTTP.
- E. The user will have to press the logon button to submit the credentials to the controller.

Correct Answer: AB

QUESTION 2
