QUESTION 1

Sentence-templates can be used to document natural language requirements. You want to introduce such a sentence-template in your project and must convince your project manager of its advantages. Which two arguments do most likely put forward in this discussion? (2 Points)

- A. High quality requirements are guaranteed already from the initial documentation.
- B. Requirements that are formulated according to the sentence-template contain no linguistic transformation effects.
- C. Drafting requirements in accordance with sentence-templates can be learned in a short time.
- D. The use of a sentence-template basically delivers greater information content.
- E. A requirement drafted according to a sentence-template satisfies all quality criteria for requirements.

Correct Answer: AB

QUESTION 2

Which sentence best characterises the term "stakeholder"? (1 Point)

- A. The external actors interacting with a system and the technical interfaces to surrounding systems are designated as stakeholders.
- B. Stakeholders are persons and organisations affected by the development and the use of the system or of the product.
- C. Stakeholders are special interest representatives who are responsible for the approval of the first project phase.
- D. A stakeholder is responsible for the administration of the software development environment.

Correct Answer: B

QUESTION 3

The following state diagram is to be found in a requirements specification for an order management system. Which of the following requirements is consistent with the diagram and which are not? (2 Points)

Consistent	Not consistent	
A	B	An invoice may only be issued after the products listed on it have been dispatched.
C	D	A product that is not in stock is sent directly by the supplier.
E	F	Every order results in at least one invoice.
G	H	All products ordered are delivered, except if they are discontinued by the supplier.

- A. A
- B. B
- C. C
- D. D
- E. E
- F. F
- G. G
- H. H

Correct Answer: ADFG

QUESTION 4

Requirements elicitation: Your company has received a customer contract to develop a system for the scheduling of the customer's delivery vans. It is your task to identify the requirements for this scheduling system. You have arranged appointments for interviews with three key members of the customer's staff, and are now preparing interview questions. Which of the questions below are appropriate interview questions for the requirements elicitation? (2 Points)

- A. What are the most important technical terms for the application and how are they defined?
- B. If the delivery deadline is not met, is a contract penalty to be paid?
- C. What data quantities / data rates are to be processed?
- D. When is the installation of the completed system to be started?

Correct Answer: C

QUESTION 5

Starting from an informal and unstructured description of the facts, semiformal description techniques attempt to take a step in the direction of formality, for example to prevent misunderstandings. One of the semiformal description techniques is the sentence-template.

What is the most precise definition of a sentence-template as used for requirements? (1 Point)

- A. A sentence-template is a blueprint for a requirement.
- B. A sentence-template is a blueprint for the semantic filling of the individual requirement elements.
- C. A sentence-template is a blueprint for the syntax and semantics of a requirement.
- D. A sentence-template is a blueprint for the syntactical structure of an individual requirement.

Correct Answer: D
