**QUESTION 1**

You would like to design a requirements document in such a way that it is particularly well suited to the project participants who are to continue working with it. Please select from the following statements the two most appropriate assignments of requirement properties to participants. (1 Point)

- A. For the tester the requirements must be practicable.
- B. For the developers the requirements must be easily changeable.
- C. For all participants the requirements must be consistent.
- D. For the project manager the requirements must be evaluated.
- E. For maintenance the requirements must be testable.

Correct Answer: CD

---

**QUESTION 2**

As input for the system development, the Board of Directors of an automotive manufacturer has specified the following goals:

1.

The infotainment system should be easy to operate.

2.

The user must be able to operate the system without becoming distracted from the road traffic.

3.

The system should function without an additional power source.

4.

The system should be configurable for various models of car.

With which two approaches can these goals be detailed and refined best? (2 Points)

- A. Clear specification of the goals with the help of use cases and the associated activity diagrams.
- B. Documentation of the goals in a sequence diagram.
- C. Decomposition of the goals with the help of goal trees, in order to obtain more concrete goals.
- D. Formulation of other goals, since the given goals are not feasible.

Correct Answer: AB

---

**QUESTION 3**

Which of the following statements best characterizes the relationship between a requirements engineer and a stakeholder in the role of a tester? (1 Point)

- A. The requirements engineer delivers input for the work of the stakeholder.
- B. The output from the requirements engineer is managed by the stakeholder.
- C. The stakeholder delivers input for the requirements engineer.
- D. The stakeholder monitors the work of the requirements engineer.
- E. The work of the requirements engineer is not related to the role of the stakeholder.

Correct Answer: A

**QUESTION 4**

You wish to define technically relevant terms in a project. Indicate true or false for the following statements in order to complete the sentence beginning "The definition of technically relevant terms ..." (2 Points)

True	False	
A	B	... is a desirable, but not strictly necessary component of requirement documents.
C	D	... Must establish for technical terms their meaning for the system to be specified.
E	F	... Must be cross-project in nature.
G	H	... Is always made more understandable by means of additional examples and counterexamples.

- A. A
- B. B
- C. C
- D. D
- E. E
- F. F
- G. G
- H. H

Correct Answer: BCFG

**QUESTION 5**

In requirements engineering, the use of model-based documentation is very helpful. Behaviour, functions and the structures of the entity being considered can be represented with diagrams. Which two of the following diagrams help to represent the structural perspective of the requirements model? (1 Point)

- A. Entity-relationship diagram
- B. State diagram
- C. Deployment diagram
- D. Class diagram
- E. Data diagram

Correct Answer: AD
