CruiseAlong Cars CruiseAlong Cars is a car manufacturing and sales company with corporate headquarters in the United States of America; It has grown by acquisition over the last 20 years and has operations in over 50 countries. Each country has its own IT organization, with some central corporate IT services provided by the US parent company. In some countries CruiseAlong Cars has outsourced infrastructure and service desks. The largest IT supplier is Global City IT Services (GCITS). In two countries GCITS provides CruiseAlong Cars with full outsourced services. They also provide selected services in other countries.

Some of the issues that CruiseAlong Cars needs to address include: Inefficiencies caused by the current IT structure Inconsistency of IT services when employees are travelling CruiseAlong Cars is working with a European university (the University of Bachstein) to research and develop driverless car technology. The venture operates as an independent company called DriveYou.com, and CruiseAlong Cars owns a 51% share. DriveYou.com This is a small, innovative company, that is jointly owned by CruiseAlong Cars and the University of Bachstein (UoB). DriveYou.com develops custom applications using a highly collaborative, rapid and iterative development approach. Their employees are mostly research and development experts, working from multiple locations, with a significant number working from home. Initial driverless car testing is being conducted in the US at the Nevegon State Department of Transportation. Infrastructure and cloud services are purchased from Global City IT Services and other providers, and these relationships are managed by a DriveYou.com supplier manager. Some of the issues that DriveYou.com needs to address include: Better structure and accountability around their work practices Compliance with safety and other regulatory requirements. University of Bachstein (UoB) The UoB is a university that is based Germany, with a satellite campus in Kuala Lumpur, Malaysia; In the past, some IT services were funded and run centrally, and some were funded and run independently by each faculty. Centrally owned services include a `walk-in\\' service desk, plus a separate service desk in the main library, run by library staff. Library services and IT are both part of the university\\'s administrative services division. Recently, under a new CIO, there has been a drive to centralize and consolidate IT as a corporate function, although this has not been fully achieved. The central IT department runs a variety of legacy systems, which serve students, administrators, researchers and academics. It also runs some high performance computing systems and high bandwidth networks across the main campus area; Some of the issues that the UoB needs to address include: Complete the centralization and consolidation of IT Manage growth and increasing IT demand Demonstrate value through competitive, responsive and transparent services Global City Services (GCITS) GCITS is a global service provider which has grown through acquisition and which offers a wide range of services, including IT support, infrastructure and consulting. GCITS has mature and efficient IT service management processes, and holds an ISO/IEC 20000 certification. GCITS provides the entire infrastructure and some cloud services for DriveYou.com, as well as a range of services in different countries to CruiseAlong Cars. Some of the issues that GCITS needs to address include: Succeed in establishing a strategic partnership with CruiseAlong Cars Nevagon State Department of Transportation (NSDoT) NSDot is a government agency in the US state of Nevagon, where DriveYou.com is running their trials. It is responsible for managing transportation systems and safety. DriveYou.com must work with the agency to ensure that their trials comply with safety regulations, and the program includes bi0directional sharing of large amounts of data; The NSDoT\\s internal IT team writes and manages most of their agency-specific applications, however most other applications and infrastructure are provided by the Nevagon State central IT department. CruiseAlong Cars central IT organization wants to implement a new ITSM toolset to replace their outdated system. The new ITSM toolset will be used by all CruiseAlong Cars\\' IT departments and their service desks. The business case for the improvement has not been made yet. This could include financial contribution from various countries. The overall goal of the initiative is to achieve efficiencies and cost reductions through the centralization of processes and data for reporting across country-based IT departments.

What is the BEST way to follow the guiding principle `observe directly\\' when defining the requirements for the new consolidated ITSM toolset?

- A. Hold a workshop with IT support staff and business process owners in all countries.
- B. Hold a workshop with a representative group of IT support staff and business management.
- C. Visit a representative group of IT management and IT support staff.
- D. Visit senior IT management and business management in all countries.

Correct Answer: C

GCITS have a major audit coming up to verify continued compliance to the ISO/IEC 20000 standard. In preparation for the audit, they are conducting a series of internal audits. GCITS has grown through acquisition. The latest acquisition, Optimsolv, does not comply with ISO/IEC 20000. Optimsolv has a number of process improvements that need to be implemented to attain compliance. GCITS has six months to ensure that Optimsolv is compliant.

Which OCM activity will BEST help Optimsolv to overcome any staff resistance, and comply with ISO/IEC 20000 within six months?

- A. Create a sense of urgency for the change.
- B. Demonstrate enough value to business.
- C. Make compliance the top corporate priority.
- D. Maintain a focus on continual improvement.

Correct Answer: C

CruiseAlong Cars is planning to improve the provision and support of IT services for senior executives who travel. They will deploy new mobile technology to enhance the user experience. They will also improve the incident management and request fulfilment processes and standardize these across service desks. They are taking an iterative approach and have released the first iteration of improvements. A project manager has been appointed for this improvement initiative. One CSF for the project is to provide an improved service to senior executives.

Which two KPIs are BEST to underpin this CSF?

https://www.leads4pass.com/itil-practitioner.html 2024 Latest leads4pass ITIL-PRACTITIONER PDF and VCE dumps Download

	KPIs (APPLIED TO THE PROPERTY OF THE PROPERTY			
1	Increased end-to-end availability of the new mobile technology			
2	Improved senior executive satisfaction at incident closure			
3	Reduction in costs for the provision of mobile services			
4	Improved availability of servers within the data centre			

A.	1	and	2

B. 2 and 3.

C. 3 and 4.

D. 1 and 4.

Correct Answer: A

QUESTION 4

Why is stakeholder management an important part of any improvement initiative?

- A. To identify the leader who will fund the change.
- B. To determine the level of resource allocated to the change.
- C. To determine risk levels presented by organizational culture.
- D. To identify whose support is needed for the change.

Correct Answer: D
