QUESTION 1

You are performing initial configuration steps on a MAG Series Junos Pulse Service Gateway using the serial cable that came with the appliance. You have connected one end of the cable to the serial port on a PC and you need to connect the other end to the appliance. There are several ports on the front of the MAG Series chassis.

Which port must you use?

- A. USB port
- B. serial terminal port
- C. A0
- D. console port

Correct Answer: D

QUESTION 2

What are three reasons for using certificates? (Choose three.)

- A. for role mapping
- B. to acquire an IP address
- C. for server authentication
- D. for user authentication
- E. for ESP negotiation

Correct Answer: ACD

QUESTION 3

A Network Connect (NC) user attempts to start a VPN tunnel and receives the error message shown below:

"The secure gateway denied the connection request from this client".

What are two reasons why this error would occur? (Choose two.)

- A. There is no IP address pool defined for the user's role in the NC Connection Profile.
- B. A firewall is blocking access between the client and Secure Access Gateway.
- C. The DHCP server configured to assign IP Addresses in the NC Connection Profile is not responding.

D. A DNS profile has not been configured in the NC Connection Profile.

Correct Answer: AC

QUESTION 4

-- Exhibit -(logintime.dayOfWeek = (Mon to Fri)

AND loginTime = (8:00AM to 5:00PM) AND hostCheckerPolicy = "Antivirus check"

AND groups = "\\Employees\\") OR groups = "\\Executives\\"

-- Exhibit -A detailed rule exists that prevents access to a Web page based on the custom expression shown in the exhibit. You want to ensure that Alice can access the resource any day of the week during any time period.

What is required for Alice?

- A. Alice must be assigned the Employees group.
- B. Alice must be assigned the Executives group.
- C. Alice must pass the Host Checker policy.
- D. Alice must sign in using Junos Pulse.

Correct Answer: B

QUESTION 5

You want to create a VPN tunneling role that allows access to the corporate network but still allows users to access the Internet outside of the VPN tunnel. In the Admin UI, which VPN tunneling policy must you configure?

- A. Access Control
- B. Connection Profile
- C. Bandwidth Management
- D. Split-Tunneling Networks

Correct Answer: D
