QUESTION 1

You have configured VPN Tunneling using Junos Pulse with minimal components and deployed it to your employees. You decide to configure a Host Checker policy for your employees and apply it to their role. Which behavior will the user experience on the client machine the next time they sign in using Junos Pulse?

- A. Junos Pulse will prompt the user with a certificate warning.
- B. Junos Pulse will prompt the user to install Host Checker.
- C. Junos Pulse will prompt the user to sign in using the Web UI.
- D. Junos Pulse will prompt the user to upgrade the Junos Pulse client software.

Correct Answer: D

QUESTION 2

You want to use ESP for your VPN Tunneling transport mechanism.

Which port must you have open on your firewall to the Junos Pulse Secure Access Service in a default configuration?

- A. UDP 500
- B. TCP 500
- C. UDP 4500
- D. TCP 4500

Correct Answer: C

QUESTION 3

Which two statements are true about Online Certificate Status Protocol (OCSP)? (Choose two.)

- A. OCSP provides real-time certificate verification.
- B. The Revocation Checking option must be disabled in OCSP.
- C. OCSP must have the Allow Clock Discrepancy field set to zero.
- D. The Junos Pulse Secure Access Service is an OCSP client.

Correct Answer: AD

QUESTION 4

You are deploying a VPN tunneling client and are asked to configure a restrictive set of tunneling policies. In the Admin UI, which two VPN Tunneling role settings apply? (Choose two.)

- A. Split Tunneling
- B. VPN Tunneling Access Control
- C. Route Monitor
- D. Connection Settings

Correct Answer: AC

QUESTION 5

What are three benefits that resource profiles provide over resource policies? (Choose three.)

- A. Resource profiles provide automatic mapping of users to roles.
- B. Resource profiles provide a simplified process for creating bookmarks and resource policies.
- C. One profile can be assigned to multiple roles.
- D. Resource options can be customized for each profile.
- E. Resource profiles provide a simplified process for configuring applications such as VPN tunneling.

Correct Answer: BCD
