QUESTION 1

Click the Exhibit button.

Create remote custom feed[?]

Name * [?]	<input type="text" value="Custom-feed1"/>
Description [?]	<input type="text" value="Write description..."/>
Feed Type * [?]	<input type="text" value="Infected Hosts"/>
Type of server url * [?]	<input checked="" type="radio"/> http <input type="radio"/> https
Server File URL *	<input type="text" value="http://10.10.10.10/feeds"/>
Username [?]	<input type="text" value="lab"/>
Password [?]	<input type="password" value="*****"/>
Update Interval * [?]	<input type="text" value="Hourly"/>

Referring to the exhibit, which two statements are true? (Choose two.)

- A. Events based on this third-party feed will not affect a host's threat score
- B. SRX Series devices will block traffic based on this third-party feed
- C. SRX Series devices will not block traffic based on this third-party feed
- D. Events based on this third-party feed will affect a host's threat score

Correct Answer: AB

QUESTION 2

You are asked to set up notifications if one of your collector traffic feeds drops below 100 kbps.

Which two configuration parameters must be set to accomplish this task? (Choose two.)

- A. Set a traffic SNMP trap on the JATP appliance
- B. Set a logging notification on the JATP appliance
- C. Set a general triggered notification on the JATP appliance
- D. Set a traffic system alert on the JATP appliance

Correct Answer: BD

QUESTION 3

You are asked to configure a new SRX Series CPE device at a remote office. The device must participate in forwarding MPLS and IPsec traffic.

Which two statements are true regarding this implementation? (Choose two.)

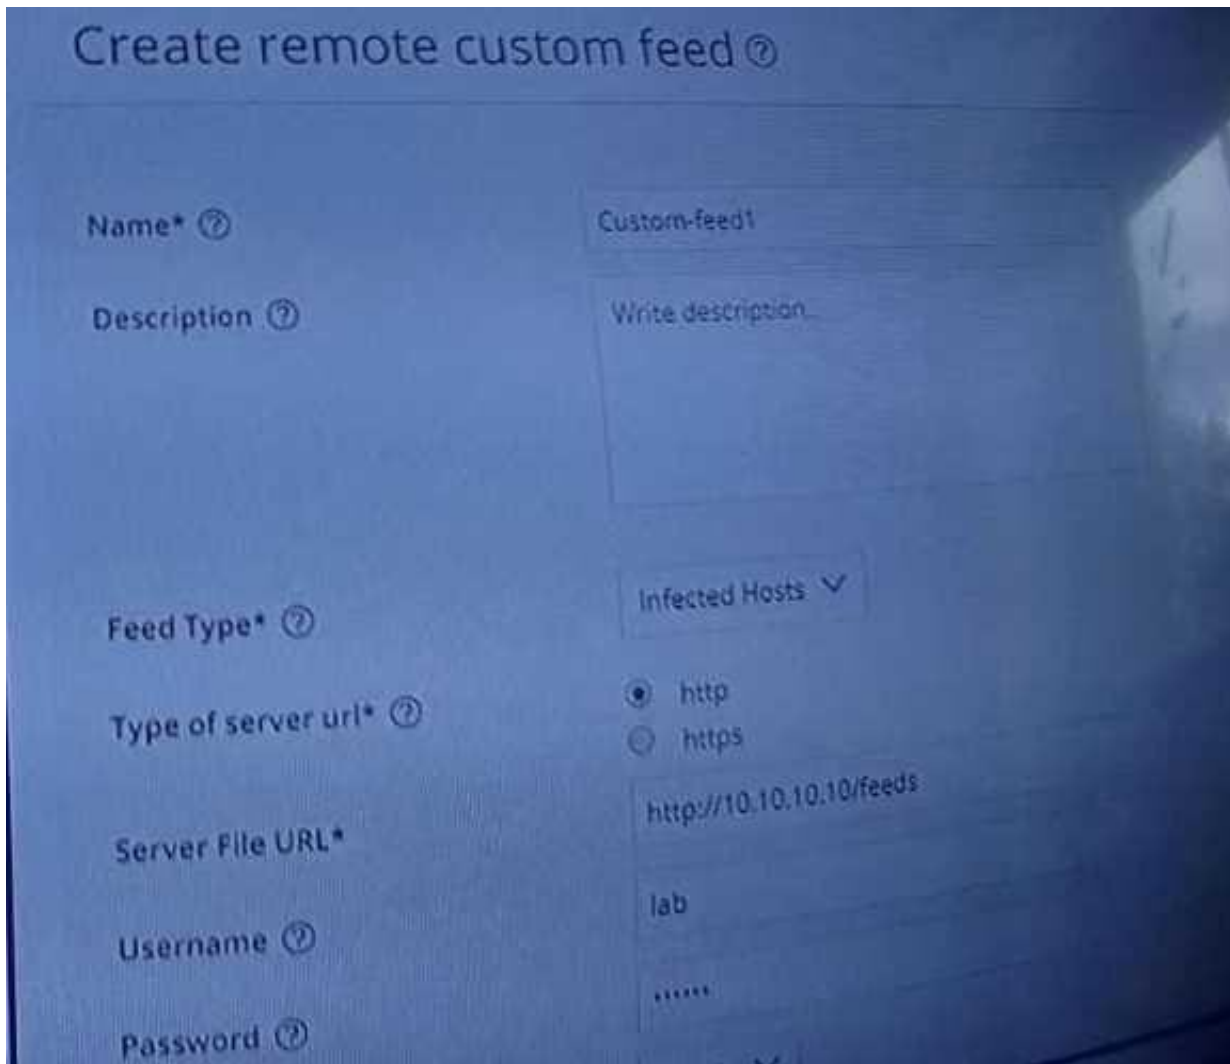

- A. Host inbound traffic must not be processed by the flow module
- B. Host inbound traffic must be processed by the flow module
- C. The SRX Series device can process both MPLS and IPsec with default traffic handling
- D. A firewall filter must be configured to enable packet mode forwarding

Correct Answer: AD

QUESTION 4

Exhibit.

Referring to the exhibit, which two statements are true? (Choose two.)

- A. Juniper Networks will not investigate false positives generated by this custom feed.
- B. The custom infected hosts feed will not overwrite the Sky ATP infected host's feed.
- C. The custom infected hosts feed will overwrite the Sky ATP infected host's feed.
- D. Juniper Networks will investigate false positives generated by this custom feed.

Correct Answer: AC

Reference: https://www.juniper.net/documentation/en_US/junos-space18.1/policy-enforcer/topics/task/configuration/junos-space-policyenforcer-custom-feeds-infected-host-configure.html

QUESTION 5

You have designed the firewall filter shown in the exhibit to limit SSH control traffic to yours SRX Series device without affecting other traffic.

Which two statements are true in this scenario? (Choose two.)

- A. The filter should be applied as an output filter on the loopback interface.
- B. Applying the filter will achieve the desired result.
- C. Applying the filter will not achieve the desired result.
- D. The filter should be applied as an input filter on the loopback interface.

Correct Answer: CD
