QUESTION 1

A customer has requirements to remotely search user profiles based on attributes of the profile using web services. How can this task be accomplished in WebSphere Portal?

- A. By means of the remote portal search service
- B. By means of the remote PUMA SPI REST service
- C. By means of the remote virtual member manager service
- D. By means of the user repository APIs and wrap web services around API calls.

Correct Answer: B

QUESTION 2

Aside from normal steps for deploying portlets to a page, what additional step, if any, is necessary to configure a portlet using the Struts MVC framework and a portlet using the JavaServer Faces framework to the same portal page?

- A. Server-side aggregation must be forced on a page
- B. Both portlets must comply with the JSR286 Portlet Specification
- C. No additional steps are required
- D. Framework JAR files must be added to WebSphere Application Server shared libraries

Correct Answer: C

QUESTION 3

Mateus has developed a custom session validation filter called MyCorpAdvSessionFilter. He needs to test the filter in a running portal. What steps does he need to perform to test the filter?

- A. Add the filter definition to the web.xml file of the wps.ear and redeploy the wps.ear file
- B. Set the enable.login.filterchains property to true, deploy classes, and restart the portal server
- C. Run the ConfigEngine task enable-filter-chains, deploy classes, and restart the portal server
- D. Set the enable.login.filterchains property to true, add a class name to the sessionvalidation.filterchain property, deploy classes, and restart the portal server.

Correct Answer: D

QUESTION 4

Which of the following options is a true statement about layout templates?

- A. If you change the layout template, it gets reflected in all pages that use that template directly.
- B. If you change the layout template, it does not get reflected in all pages that use that template, and you have to synchronize the layout template.
- C. If you change the layout template it does not get reflected in all pages that use that template, you have to change it manually at the page level.
- D. After the layout template is applied to page, you cannot change it.

Correct Answer: B

QUESTION 5

The XYZ company has a custom portlet that provides access to data from the company mainframe. Twice a day, the mainframe performs a batch process to update the data. During the batch process, the portlet cannot access the data. Which one of the following options allows you to hide the portlet during the batch processing times?

- A. Use the Policy editor to create a portlet availability policy, then use the Page Layout editor to assign the policy to the portlet.
- B. Use the Policy editor to create a portlet availability policy and to assign the policy to the portlet.
- C. Use the Personalization editor to create a portlet visibility rule, then use the Page Layout editor to assign the rule to the portlet.
- D. Use the Personalization editor to create a portlet visibility rule and to assign the rule to the portlet.

Correct Answer: C
