QUESTION 1

A company sells jars of sliced or whole pickles. The company produces jars of various sizes.

You need to set up the item to ensure that pickles have a single item number for all container sizes.

What are two possible ways to achieve this goal? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Setup the size, color, and style in each legal entity. Go to the products form, create a new product and assign it to each dimension.
- B. Create a new product master with predefined variant configuration technology and release to the legal entities. Use the product dimensions to define the size, color, and style.
- C. Create and release a product to the legal entities. Use the storage dimensions to define the size, color, and style.
- D. Create a new product master with dimension-based configuration technology and release to the legal entities. Use the configuration to define the size, color, and style.
