Blank receipt allowed: If the Primary stocking check box is not selected, then you can select the Blank receipt allowed check box to prevent specification of the dimension when physical receipts are updated. This functionality is useful if, for example, you do not want to specify the serial/lot number upon input but you do for picking and output. Scenario: Inventory control

Scenario: You must not be required to track the lot number for items when you enter inventory information into the system. Lot numbers for items must be entered when items are picked from inventory.
