QUESTION 1

A company has a Dynamics B65 Finance environment.

The company\'s architect is working with a developer to perform multi-user testing with the Performance SDK.

You need to ensure the environment is prepared to achieve the goal.

Which two prerequisites must be met? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

A. Visual Studio 2019 Enterprise Edition

B. Visual Studio 2015 Professional Edition

C. Tier-2 Sandbox

D. Tier-1 Sandbox

Correct Answer: AC

Reference: https://docs.microsoft.com/en-us/dynamics365/fin-ops-core/dev-itpro/perf-test/perfsdk-multi-user-testing

QUESTION 2

A company produces automotive components. The company uses Microsoft Excel to track the quantity of parts on hand. The company wants to automate processes to track inventory using Dynamics 365 Supply Chain Management You

need to ensure that the company can track supplies and determine when to purchase new inventory.

Which two features should you use?

Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

A. Demand forecasting

B. Master planning

C. Purchase requisitions

D. Purchase agreements

E. Purchase policies

Correct Answer: AB

QUESTION 3

A company uses out-of-the-box functionality in Dynamics 365 Supply Chain Management.

You identify a bug in the app.

You perform a Lifecycle Services (LCS) issue search. The search results show the bug.

The status of the bug is resolved.

You need to implement the Microsoft-supported resolution into a development environment.

What should you do?

A. Copy code changes for manual insertion into the SYS layer.

B. Copy code changes for manual insertion into the VAR layer.

C. Download a hotfix for installation into the VAR layer.

D. Download a hotfix for installation into the SYS layer.

Correct Answer: B

QUESTION 4

A company with multiple legal entities implements Dynamics 365 Finance. The company does not want to purchase additional licensing or incur development costs.

The company\\'s controller notes that vendors exist in multiple companies. The system does not apply and does not post payments to the correct company.

The controller notes that a company-specific report exists for vendor payment journals.

You must replace the single company-specific report with a global report that displays the vendor payment journal status across all companies in the organization for a single vendor.

You must minimize development and creation of new reports.

You need to identify a tool to create the report.

What should you recommend?

A. Financial Reporter

B. Electronic reporting tool

C. View

D. SQL Server Reporting Services (SSRS)

E. Power BI

Correct Answer: A

Financial reporting for the application allows financial and business professionals to create, maintain, deploy, and view financial statements. It moves beyond traditional reporting constraints to help you efficiently design various types of

reports.

Financial reporting includes dimension support. Therefore, account segments or dimensions are immediately available. No additional tools or configuration steps are required.

QUESTION 5

DRAG DROP

A company plans to implement Dynamics 365 Supply Chain Management.

The company\\'s employees have been using the same system and processes for many years. Employees are reluctant to change the old processes.

You need to create an adoption plan and measure the effectiveness of the plan.

In which phase does each activity belong? To answer, drag the appropriate phases to the correct activities. Each phase may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Select and Place:

Phases

Envision

Onboard

Drive value

Answer Area

Activity

Create an adoption plan.

Phase

Measure the effectiveness of the plan.

Phase

Correct Answer:

Phases	Answer Area
Envision	**Activity**
	Create an adoption plan.
	Onboard
	Measure the effectiveness of the plan.
	Drive value

Box 1: Onboard Phase two: Onboard Work with your key stakeholders to build and launch your adoption plan. Prepare your environment and test your adoption approach with Early Adopters. Use feedback to make adjustments before scaling to the business. In this phase, you will:

Build your adoption plan. Launch to Early Adopters. Adjust your plan.

Box 2: Drive value Phase three: Drive value Full-scale deployment and business success depend on usage and satisfaction. This requires planning through the Envision and Onboard phases plus ongoing operational excellence. In this phase, you will:

Monitor end-user adoption. Measure and report usage. Encourage ongoing engagement.
