QUESTION 1

A company plans to implement Dynamics 365 Finance Operations (on-premises).

The company has system compliance requirements that must be addressed. You need to design the solution for the company. What should you address in the design?

- A. job-protected family and medical leave
- B. workers' compensation
- C. employee retirement
- D. data privacy

Correct Answer: D

QUESTION 2

A company is moving financial workloads to Dynamics 365 Finance.

Balance sheet accounts do not require department dimension postings while profit and loss accounts require department dimensions.

You need to determine which functionality achieves the goal.

What should you recommend?

- A. Legal entities
- B. Financial dimensions
- C. Account structures
- D. Financial dimension sets

Correct Answer: C

QUESTION 3

DRAG DROP

You need to determine user licensing options for Dynamics 365 Finance + Operations (on-premises).

Which type of license should you recommend? To answer, drag the appropriate licenses to the correct users. Each license may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view

content.

NOTE: Each correct selection is worth one point.

Select and Place:

Licenses	Answer Area	User	License
Device user		Warehouse employee using scanners to count inventory	License
Team member		Company controller	License
Enterprise user		Worker entering expenses only	License
Name user			

Correct Answer:

Licenses	Answer Area	User	License
		Warehouse employee using scanners to count inventory	Device user
		Company controller	Enterprise user
Name user		Worker entering expenses only	Team member

QUESTION 4

A company uses Dynamics 365 Supply Chain Management and has two legal entities that distribute the same items. One of the legal entities uses advanced warehouse management.

New items that are created must meet the business needs of both companies and allow for consolidated analytics.

You need to recommend a master data management strategy to standardize the item master and meet the business requirements.

What should you recommend?

- A. Create the product record and release to each company where setup variations are completed.
- B. Use Common Data Management to create the item templates for both legal entities.
- C. Create an item in each company with different item numbers.
- D. Use an advanced warehouse setup for the product and release to both companies.
- E. Create an item in each company with the same item number.

Correct Answer: B

QUESTION 5

A local community college uses Microsoft SharePoint Online to track and manage laptop computers that are issued to

faculty and other employees. Information about all laptops must be visible in Asset Management for Dynamics 365 Supply

Chain Management. Users must be able to issue new laptop computers to faculty and other employees directly from the system.

You need to recommend a solution for the college.

Which two actions should you recommend? Each correct answer provides a complete solution.

NOTE: Each correct selection is worth one point.

- A. Implement data management.
- B. Implement human resources.
- C. Embed PowerApps into the Employees form.
- D. Implement fixed assets.

Correct Answer: BC
