QUESTION 1

You need to set up a trade agreement for a group of customers. The trade agreement will apply to one item.

How should you configure the price discount journal for Account code and Item code?

- A. Set Account code to Table and set Item code to Group.
- B. Set Account code to Group and set Item code to Table
- C. Set Account code to Group and set Item code to All
- D. Set Account code to Table and set Item code to Table

Correct Answer: B

Group of customers: Account code: Group Specific item: Item code: Table

QUESTION 2

You need to report a bill of materials (BOM) as finished.

Which three settings should you specify before you report the BOM as finished? Each correct answer presents part of the solution.

- A. Subcomponents
- B. BOM number
- C. Date
- D. Quantity
- E. Storage dimensions

Correct Answer: BCD

A bill of material (BOM) can be reported as finished when no further changes are necessary and when you want to post the inventory transactions.

At a minimum, enter information in the following fields: BOM number Date Quantity Item number Any applicable Configuration

QUESTION 3

You need to configure commissions to be calculated on sales, only after all discounts are taken on the line items of a sales order. What should you use?

- A. The Sales order journal
- B. The Price/discount agreement journal

- C. The Commission percentage field
- D. The Discount field

Correct Answer: D

Commission calculation (form) [AX 2012]

Field: discount

Specify whether the calculation of the commission for the individual invoice line will be based on the gross line amount (Before line discount) or on the net line amount (After line discount). If you select After total discount, any end discount is

deducted from the total commission that is calculated after the line discount.

Incorrect:

Not C: Field: Commission percentage

Specify the percentage base with which to calculate the amount of the commission. Together with the calculation method in the Discount, the percentage basis entered here calculates the size of the commission.

QUESTION 4

Which two statements describe a requirements explosion from a sales order line? Each correct answer presents a complete solution.

- A. The explosion creates a sales order line for each component of a bill of materials (BOM).
- B. The explosion shows how requirements can be satisfied for the sales order line.
- C. The explosion is a partial update of the dynamic master plan.
- D. The explosion is used for the availability check.

Correct Answer: BC

C: Sales explosions are carried out in the Current dynamic master plan.

B: In the updated Explosion form, you can view order fulfillment information that includes the possible delivery date.

QUESTION 5

You need to ensure that a shipment from a vendor can be accepted into inventory, even if the quantity of the product received is greater than the amount ordered.

What should you configure?

- A. The inventory and warehouse management parameters
- B. The procurement and sourcing parameters

C. The product Information management parameters

D. The accounts payable parameters

Correct Answer: A

Inventory and warehouse management parameters (form) [AX 2012] Click Inventory management > Setup > Inventory and warehouse management parameters. Use this form to set up inventory and warehouse management parameters. The

parameters are organized according to their overall use. You can use inventory and warehouse management parameters to help with the following tasks:

Choose between different types of functionality.

Enter default information that is used if the information has not been specified at a lower level.

Select number sequences for a section.
