QUESTION 1

You create a counting journal. The counted quantity on some lines of the journal is higher or lower than the on-hand quantity.

You need to identify which field will be updated in the inventory transaction when you post the counting journal.

Which field should you identify?

- A. Quantity
- B. Counted
- C. On-hand
- D. Line amount

Correct Answer: C

Field On-Hand: The on-hand inventory levels of the item for the inventory dimension on the counting date.

QUESTION 2

Which three configuration technologies are supported on the product master definition? Each correct answer presents part of the solution.

- A. Dimension-based configuration
- B. Product attributes
- C. Constraint-based configuration
- D. Predefined variant
- E. Product variant

Correct Answer: ACD

*

Dimension-based configuration

Variants are configured by using the Configuration dimension when the variants are added to transaction lines.

*

Constraint-based configuration

Variants are configured by using the Product configurator when the variants are added to transaction lines.

*

Predefined variant

Variants are configured by using the product dimensions when the variants are created. Therefore, after you create the product master, you can assign product dimensions and create product variants.

QUESTION 3

A customer is placing an order for an item that is in stock. The customer requires that the order be delivered within two weeks.

You need to identify the minimum amount of time required for the order to be delivered to the customer.

What should you do from the Sales order form?

- A. View the Confirmed receipt date.
- B. View the Confirmed delivery date.
- C. Click Simulate delivery dates
- D. From the purchase order, view the Requested receipt date

Correct Answer: C

To review the available receipt and ship dates and transfer them to the order again, click Simulate delivery dates and revise the dates. The Available ship and receipt dates form is displayed. In the Available ship and receipt dates form, select

the date that matches your requirements, and then click Update requested ship date.

Incorrect:

Not A: Confirmed receipt date The confirmed receipt date when you will be able to meet the customer's requested receipt date.

not D: Requested receipt date The requested receipt date when the customer wants to receive the goods.

QUESTION 4

You need to register a pallet controlled item.

What are two possible ways to achieve this goal? Each correct answer presents a complete solution.

- A. Complete a pallet transport.
- B. Post an arrival journal.
- C. Use the Direct registration function on the Arrival overview form.
- D. Use the registration function on the order line.

Correct Answer: AB

A: ARRIVAL OVERVIEW (PALLET CONTROLLED)

At this point the inventory will be located at the inbound dock and with a pallet transport on the system awaiting a warehouse worker to put away. Therefore then next step is to pick up and process the pallet transport.

1.

Navigate to Inventory and warehouse management > Common > Pallet transports

2.

In this screen you should find the pallet transports required to put your stock away

3.

Select the line you would like to put away and click `Start transport`

4.

You can select the work who will then process this transaction etc... Click OK in this screen

5.

At this point the transport will be in a status of `Started` you can complete the transport if the location is as expected, if not you can always use the `Change destination location` function to amend the put away location.

6.

Clicking Complete transport will physically move the stock from the Inbound location to the destination location in a status of `Registered`

B: Select the journal line, and click Functions > Pallet ID to assign a pallet to the item and post the item arrival journal.

Open Inventory and warehouse management > Setup > Journal names, warehouse management Create a new Item arrival and select confirm that the following parameters are ticked:

QUESTION 5

You plan to create a product template.

Which three settings will be copied when you create a new product that is based on the product template? Each correct answer presents part of the solution.

A. Item price

B. Item group

C. Tracking dimension group

- D. Item model group
- E. Units of measure

Correct Answer: BDE

Once you have selected a product template, you can click Show more fields in order to view the important field content that has been provided by the template. You can overwrite template values which are displayed on the form.
