**QUESTION 1**

The overall purpose of MRP is to provide time-phased formal plans, by item, to supply the right item at the right time, in the right place, and in the right quantity. MRP uses action messages to tell the user what must be done to meet demand. What action messages are displayed in the planning worksheet? Choose the 3 that apply.

A. Create a new order.

B. Cancel an order.

C. Finish an order.

D. Change an order (quantity, timing).

Correct Answer: ABD

**QUESTION 2**

After a production order is manually created, how can a production planner determine whether the component items are available? Choose the 2 that apply.

A. Execute the Calculate Plan function from Order Planning.

B. Review the Production Order Components window.

C. Review the Item Substitution window.

D. Review the Prod. Order - Shortage List report.

Correct Answer: AD

**QUESTION 3**

You are a consultant implementing Microsoft Dynamics NAV 2009.You are assisting your client in setting up a Work Center. On the Scheduling FastTab your client has selected minutes in the Unit of Measure Code field.Your client tells you that for the Assembly Department, there are five employees working an eight hour shift. Your client also tells you that time study results indicate that the employees work on average 6.4 hours of the eight hour shift.What entries do you advise your client to make in the Capacity and Efficiency fields on the Scheduling FastTab?

A. Capacity = 60, Efficiency = 80

B. Capacity = 5, Efficiency = 80

C. Capacity = 5, Efficiency = 100

D. Capacity = 500, Efficiency = 80

Correct Answer: B

**QUESTION 4**

When the Finished check box is selected on a line in the Output Journal, what functions are performed upon posting? Choose the 2 that apply.

A. Any expected quantities to consume are posted.

B. The production order status is changed to Finished.

C. The routing line status is changed to Finished.

D. The operation is removed from the Allocated Quantity field in the Work Center Load or Machine Center Load.

Correct Answer: CD

**QUESTION 5**

You are the consultant on a Microsoft Dynamics NAV 2009 implementation.You have worked with your client to set up items, production BOMs, and a production forecast. Sales orders have not been entered in the system and there is no inventory on hand. The bike item has an associated BOM. The purchased components include one saddle and one lamp per bike. In the production sales forecast, there is demand entered for a period of 100 bikes, 30 saddles, and no lamps. You have your client execute Calculate Regenerative Plan using MPS only (not MRP) in the Planning Worksheet. What results do you expect for the bike, saddle, and lamp?

A. Bike = 100; Saddle = 0; Lamp = 0

B. Bike = 100; Saddle = 30; Lamp = 0

C. Bike = 100; Saddle = 100; Lamp = 100

D. Bike = 100; Saddle = 130; Lamp = 100

Correct Answer: B
