QUESTION 1

What report is used to show a detailed listing of the costs for each operation and component for selected production orders?

- A. Prod. Order - Calculation
- B. Prod. Order - List
- C. Prod. Order - Detailed Calc.
- D. Prod. Order - Precalc. Time

Correct Answer: C

QUESTION 2

You are a technical support specialist for Microsoft Dynamics NAV 2009. One of your clients contacts you for assistance. Your client began processing a production order which was subsequently cancelled; the components were removed from inventory. Your client does not know how to record the adjustment to put the components back into inventory. What recommendation do you make to your client to correct inventory?

- A. Post a BOM journal; for the finished good enter a line with the item number and a negative quantity.
- B. Post a Consumption Journal; for the components enter a line with the production order, the item number, and a negative quantity.
- C. Execute the Reverse Consumption batch job from the production order.
- D. Post an Item Journal; for each component enter a line with a type of positive adjustment, the item number, and a positive quantity.

Correct Answer: B

QUESTION 3

What is the purpose of the Matrix per Version window?

- A. To view components for all of the existing versions of a production BOM.
- B. To view steps for all of the existing versions of a routing.
- C. To view all of the production orders created for a version of a production BOM.
- D. To enter multiple versions of a production BOM.

Correct Answer: A

QUESTION 4

The Production Journal performs many of the same functions as the Consumption and Output Journals. How does the Production Journal differ from the Consumption and Output Journals? Choose the 3 that apply.

- A. When a user closes the Production Journal without posting the changes, a request message is displayed allowing the user to stay in the journal.
- B. Production journals are opened directly from a Planned Production Order line and preset with the relevant data.
- C. Quantities and times already posted for the production order are displayed at the bottom of the journal as actual entries.
- D. Production journals display operations and components together in a logical structure that provides an overview of the production process.

Correct Answer: ACD

QUESTION 5

Production order statistics can be used to review actual and expected costs and capacity. What costs can be reviewed in production order statistics? Choose the 3 that apply.

- A. Subcontracted cost
- B. Capacity cost
- C. Opportunity cost
- D. Material cost

Correct Answer: ABD
