QUESTION 1

You have a Microsoft Exchange Server 2019 organization.

You need to configure the organization to use Exchange Online Protection (EOP) for the message hygiene of all inbound and outbound email.

Which three actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Install an Exchange hybrid server.
- B. For the organization, configure an MX record that points to Microsoft Office 365.
- C. Create a hybrid organization relationship.
- D. From the on-premises organization, create a connector to relay outbound email to Microsoft Office 365.
- E. Create a Microsoft Office 365 Connector to the on-premises organization.
- F. Create on-premises transport rules to control the outbound message flow.

Correct Answer: BDE

QUESTION 2

You have a hybrid deployment between a Microsoft Exchange Online tenant and an on- premises Exchange Server 2019 organization.

The tenant uses an email domain named @contoso.com.

You recently purchased an email domain named fabrikam.com.

You need to ensure that all the users in the tenant can receive email messages by using the @fabrikam.com email domain. The solution must ensure that the users can continue to receive email by using the @contoso.com email domain.

Which three actions should you perform? Each correct answer presents part of the solution. NOTE; Each correct selection is worth one point.

- A. From Azure AD Connect add a domain for fabrikam.com.
- B. From the on-premises Exchange admin center, add an accepted domain for fabrikam.com.
- C. From the Exchange Management Shell, create a script that runs the
- D. From the Microsoft 365 admin center, verify the fabrikam.com email domain
- E. From the on-premises Exchange admin center, modify the email address policy

F. From the Microsoft 365 admin center, add the fabrikam.com email domain.

Correct Answer: BDE

QUESTION 3

You have a Microsoft Exchange Server 2019 organization.

A compliance manager plans to create retention policies for the mailboxes of executive users. The policies will move specific emails to an archive mailbox.

You need to create an archive mailbox for each executive user.

What should you do?

- A. Run the New-Mailbox cmdlet.
- B. Enable mailbox journaling.
- C. Enable In-Place Archiving for each mailbox.
- D. Run the set-Mailbox cmdlet.

Correct Answer: C

QUESTION 4

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while

others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You have a Microsoft Exchange Server 2019 organization that contains 200 mailboxes.

You need to add a second email address to each mailbox. The address must have a syntax that uses the first letter of each user's last name, followed by the user's first name, and then @fabrikam.com.

Solution: You create an email address policy that uses the %1s%g@fabrikam.com email address format.

Does this meet the goal?

- A. Yes
- B. No

Correct Answer: A

Reference: <https://docs.microsoft.com/en-us/exchange/email-addresses-and-address-books/email-address-policies/email-address-policies?view=exchserver-2019>

QUESTION 5

You have a Microsoft Exchange Online tenant that contains a public folder named CustomerSupport.

You need to access CustomerSupport by using Outlook on the web.

Which section in Outlook on the web should you add CustomerSupport?

- A. Favorites
- B. Folders
- C. Groups

Correct Answer: B

To access the CustomerSupport public folder in Outlook on the web, you should go to the Folders section in Outlook on the web. The public folders are stored in the Folders section, along with the user's other mailbox folders. You can expand the Public Folders section to view the available public folders, and then select the CustomerSupport public folder to access it.
