**QUESTION 1**

You have a Microsoft 365 subscription.

A guest user outside your organization named Guest1 accesses a Microsoft Teams team named Team1 by using a web browser. Guest1 cannot view files on the Files tab.

You need to enable full Teams Guest access to Guest1.

Which two actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

A. From Windows PowerShell, run the Set-CsTeamsClientConfiguration cmdlet and specify the -AllowGuestUser parameter.

B. From the SharePoint admin center, select Allow sharing only with the external users that already exist only in your organization\\'s directory.

C. From the Microsoft Teams and Skype for Business Admin Center, turn on External access.

D. From the Microsoft 365 admin center, select Let group members outside the organization access group content.

Correct Answer: BC

Incorrect Answers:

A: In Teams, you can control whether the guest experience is enabled or disabled for your organization. The setting is disabled by default and applies at the tenant level for Teams only.

Set-CsTeamsClientConfiguration -AllowGuestUser designates whether or not guest users in your organization will have access to the Teams client. If $true, guests in your tenant will be able to access the Teams client. Note that this setting has a core dependency on Guest Access being enabled in your Office 365 tenant.

**QUESTION 3**

HOTSPOT You have two SharePoint Server farms named Farm1 and Farm2. In Farm1, you need to display search results from both farms. What should you use? To answer, select the appropriate options in the answer area; NOTE: Each correct selection is worth one point.

Hot Area:

Search result source to use:

| | ▼ |
| Exchange | |
| Local SharePoint | |
| OpenSearch 1.0/1.1 | |
| Remote SharePoint | |

Web part to use:

| | ▼ |
| Content Query | |
| Content Search | |
| Federated Search | |

Correct Answer:

Search result source to use:

| ▼ |
| --- |
| Exchange |
| Local SharePoint |
| OpenSearch 1.0/1.1 |
| **Remote SharePoint** |

Web part to use:

| ▼ |
| --- |
| Content Query |
| **Content Search** |
| Federated Search |
| |

**QUESTION 4**

You have a Microsoft 365 subscription.

You use Microsoft Stream to upload internal videos.

You need to add the videos to a Microsoft Teams channel.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

NOTE: More than one order of answer choices is correct. You will receive credit for any of the correct orders you select.

Select and Place:

**Actions**

| Answer Area |

Add a new tab in Teams and select **Website**. Paste the URL of the video and select **Save**.

From the Stream video page, open the **Share** tab, select the **Embed** tab, and copy the embed code.

From the Stream tab, select **Channel**. Paste the URL and select **Save**.

From the Stream tab, select **Video**. Paste the URL and select **Save**.

From the Stream video page, open the **Share** tab, and then copy the direct link to the video.

Add a new tab in Teams and select **Stream**.

Correct Answer:

**Actions**

Add a new tab in Teams and select **Website**. Paste the URL of the video and select **Save**.

From the Stream video page, open the **Share** tab, select the **Embed** tab, and copy the embed code.

From the Stream tab, select **Video**. Paste the URL and select **Save**.

**Answer Area**

From the Stream video page, open the **Share** tab, and then copy the direct link to the video.

Add a new tab in Teams and select **Stream**.

From the Stream tab, select **Channel**. Paste the URL and select **Save**.

Make it easy for your team to collaborate using video by adding a Microsoft Stream channel or video as a tab in Microsoft Teams.

1. In Stream, select the channel or video URL directly from the address bar or your browser on the channel or video page. Or, click the Share icon Share icon on the desired video, click Share, and copy the URL.

2. Open Microsoft Teams.

3. Select the plus icon on the tab bar of your Team channel.
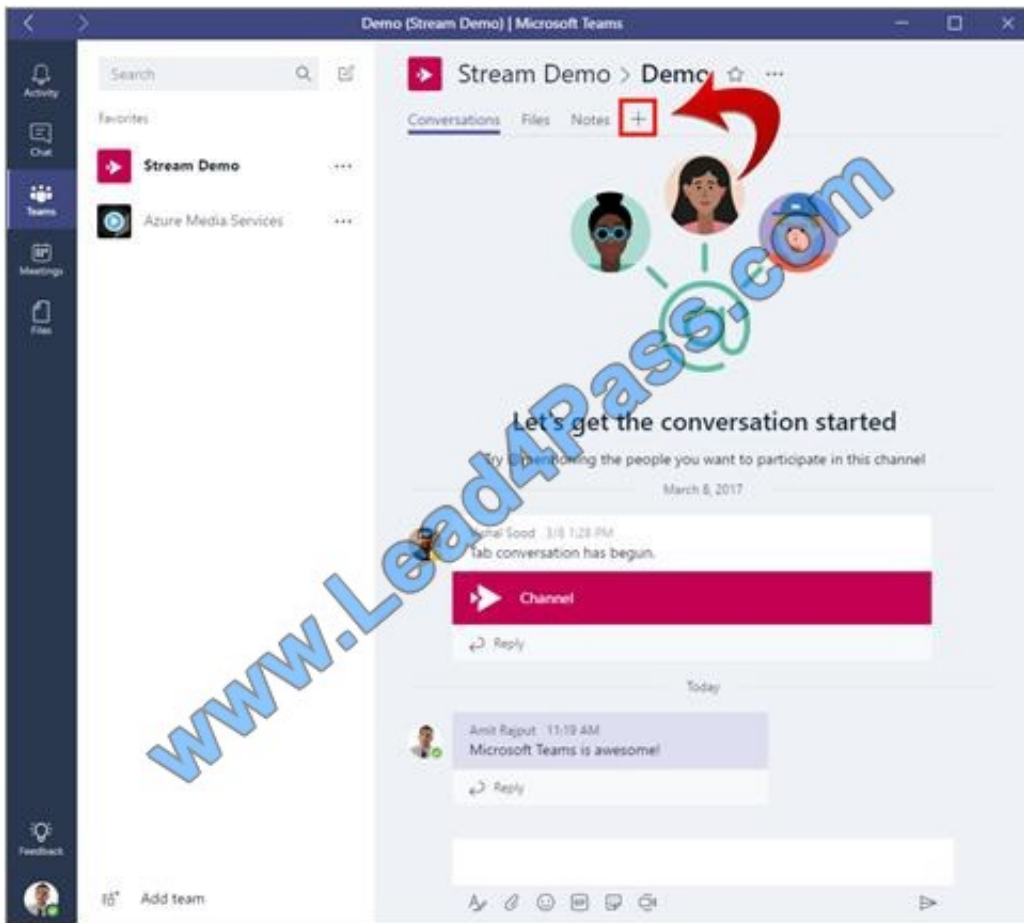

4. Select the Microsoft Stream tab.

## QUESTION 5

You have a SharePoint Server farm and a SharePoint Online subscription. You plan to configure a SharePoint hybrid environment. You need to identify which groups and roles must be assigned to your user account to implement the

deployment. The solution must use the principle of least privilege. Which three roles and groups should you identify? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

A. the Farm Administrators group in SharePoint

B. the Service administrator role in Microsoft Office 365

C. the Domain Admins group in Active Directory

D. the ADSyncAdmins group in Active Directory

E. the Global administrator role in Microsoft Office 365

Correct Answer: ACE
