## QUESTION 1

### HOTSPOT

You view Compliance Manager as shown in the following exhibit.

Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic.

NOTE: Each correct selection is worth one point.

Hot Area:

## Answer Area

To increase the GDPR Compliance Score for Microsoft Office 365, you must [answer choice].

assign action items	V
review actions	
perform an assessment	
create a service request with Microsoft	

The current GDPR Compliance Score [answer choice].

proves that the organization is non-compliant	V
proves that the organization is compliant	
shows that actions are required to evaluate compliance	

Correct Answer:

## Answer Area

To increase the GDPR Compliance Score for Microsoft Office 365, you must [answer choice].

assign action items	V
review actions	
perform an assessment	
create a service request with Microsoft	

The current GDPR Compliance Score [answer choice].

proves that the organization is non-compliant	V
proves that the organization is compliant	
shows that actions are required to evaluate compliance	

Box 1: perform an assessment You can start working with assessments and taking improvement actions to implement controls and improve your compliance score.

Box 2: shows that actions are required to evaluate compliance

Your compliance score measures your progress in completing recommended actions that help reduce risks around data protection and regulatory standards. It does not express an absolute measure of organizational compliance with regard

to a particular standard or regulation.

## QUESTION 2

You have an Azure Active Directory (Azure AD) tenant that contains the users shown in the following table.

Name	Multi-factor auth status
User1	Disabled
User2	Enabled
User3	Enforced

You configure the Security Operator role in Azure AD Privileged Identity Management (PIM) as shown in the following exhibit.

### Edit role setting - Security Operator ...

Privileged Identity Management | Azure AD roles

Activation Assignment Notification

Activation maximum duration (hours)

 3

On activation, require ☐ None  
☒ Azure MFA

You add assignments to the Security Operator role as shown in the following table.

Name	Assignment type
User1	Eligible
User2	Eligible
User3	Active

Which users can activate the Security Operator role?

- A. User2 only
- B. User3 only
- C. User1 and User2 only
- D. User2 and User3 only
- E. User1, User2, and User3

Correct Answer: D

---

### QUESTION 3

You have a Microsoft 365 subscription and a Microsoft Defender Advanced Threat Protection (Microsoft Defender ATP) subscription.

Name	Platform
Device1	Windows 10
Device2	Android
Device3	iOS

You have devices enrolled in Microsoft Endpoint Manager as shown in the following table:

You integrate Microsoft Defender ATP and Endpoint Manager.

You plan to evaluate the Microsoft Defender ATP risk level for the devices.

You need to identify which devices can be evaluated.

Which devices should you identify?

- A. Device1 and Device2 only
- B. Device1 only
- C. Device1 and Device3 only
- D. Device1, Device2 and Device3

Correct Answer: D

Microsoft Defender ATP (now known as Microsoft Defender for Endpoint) now supports Windows 7 SP1 and above, Windows Server 2008 SP1 and above, the three most recent major releases of macOS, iOS 11.0 and above, Android 6.0

and above and Red Hat Enterprise Linux 7.2 or higher, CentOS 7.2 or higher,

Ubuntu 16.04 LTS or higher LTS, Debian 9 or higher, SUSE Linux Enterprise Server 12 or higher, and Oracle Linux 7.2 or higher.

#### QUESTION 4

You have a hybrid Microsoft 365 deployment that contains the Windows 10 devices shown in the following table.

Name	Trusted Platform Module (TPM) version	Joined to	Microsoft Intune enrolled
Device1	v2.0	Active Directory	Yes
Device2	v2.0	Azure Active Directory (Azure AD)	Yes
Device3	v1.3	Azure Active Directory (Azure AD)	Yes

You assign a Microsoft Endpoint Manager disk encryption policy that automatically and silently enables BitLocker Drive Encryption (BitLocker) on all the devices. Which devices will have BitLocker enabled?

- A. Device1, Device2, and Device3
- B. Device2 only
- C. Device1 and Device2 only
- D. Device2 and Device3 only

Correct Answer: D

"The device must also be Azure AD joined or hybrid Azure AD joined. The device must also contain at least TPM version 1.2 or the Trusted Platform Module." #### QUESTION 5

## DRAG DROP

You have a Microsoft 365 E5 subscription.

All computers run Windows 10 and are onboarded to Windows Defender Advanced Threat Protection (Windows Defender ATP).

You create a Windows Defender machine group named MachineGroup1.

You need to enable delegation for the security settings of the computers in MachineGroup1.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Select and Place:

### Actions

From Windows Defender Security Center, create a role.

From Windows Defender Security Center, configure the permissions for MachineGroup1.

From the Azure portal, create an RBAC role.

From the Microsoft Azure portal, create an Azure Active Directory (Azure AD) group.

From Azure Cloud Shell, run the `Add-MsolRoleMember` cmdlet.

### Answer Area

Correct Answer:

### Actions

From Windows Defender Security Center, create a role.

From Windows Defender Security Center, configure the permissions for MachineGroup1.

From the Azure portal, create an RBAC role.

From the Microsoft Azure portal, create an Azure Active Directory (Azure AD) group.

From Azure Cloud Shell, run the `Add-MsolRoleMember` cmdlet.

### Answer Area

From the Microsoft Azure portal, create an Azure Active Directory (Azure AD) group.

From Windows Defender Security Center, create a role.

From Windows Defender Security Center, configure the permissions for MachineGroup1.
