QUESTION 1

Your company has a Microsoft 365 subscription.

You need to prevent a user named User1 from permanently deleting private chats in Microsoft Teams.

Solution: You place the mailbox of User1 on Litigation Hold.

Does this meet the goal?

A. Yes

B. No

Correct Answer: A

QUESTION 2

Your company has a Microsoft subscription.

The Microsoft 365 tenant uses a domain named contoso.com.

You need to ensure that team channels can receive email only from users in the company and email addresses that use an email domain named @fabrikam.com.

What should you modify?

A. the External collaboration settings in the Azure Active Directory admin center

B. the list of accepted domains in Microsoft Exchange Online

C. the org-wide Teams settings

D. the global teams policy

Correct Answer: C

1.

Via Teams Admin Center --> Teams settings --> Email integration --> Users can send emails to a channel email address: ON and Accept channel email from these SMTP domains: fabrikam.com.

2.

Via Teams Client: "To limit who can send email to your channel, go to the channel name, select More options More options button > Get email address, and then select the advanced settings link. From there, you can manage who\\'s able to access the email address for that channel. You can restrict the audience to include only team members who own that channel, or narrow your audience to specific domains. You can also remove your current email address entirely."

3.

QUESTION 3

HOTSPOT

Your company has a Microsoft Office 365 subscription.

The assigned licenses are shown in the Licenses exhibit. (Click the Licenses tab.)

Office

Licenses

Select a product to view and assign licenses.
Go to Products & services to manage billing or buy more licenses.

⤓ Export   ⟳ Refresh

Name ↑	Available quantity		Account type
Microsoft 365 Domestic and International Calling Plan	41 available 9 assigned of 50 total		Organization
Microsoft 365 Phone System - Virtual User	8 available 2 assigned of 10 total		Organization
Microsoft Power Automate Free	9995 available 5 assigned of 10000 total		Organization
Office 365 E3	13 available 12 assigned of 25 total		Organization
Office 365 E5	34 available 16 assigned of 50 total		Organization
Office 365 E5 without Audio Conferencing	5 available 0 assigned of 5 total		Organization
Power BI (free)	Unlimited licenses 1 assigned		Organization

The available phone numbers are shown in the Phone numbers exhibit. (Click the Phone Numbers tab.)

Phone numbers

To set up calling features for users and services in your organization, you can get new numbers or port existing ones from a service provider. You can manage phone numbers including assigning, unassigning and releasing phone numbers for people or for services like audio conferencing, auto attendants or call queues. Learn more

Numbers Order history

+ Add ↓ Port ✎ Edit

Match all of these conditions: Number starts with = 1952 ⊗

✓	Phone number	Location	Number type	Status
	+1 952 208 5221	Bloomington, United States	Users	Unassigned
	+1 952 208 5222	Bloomington, United States	Users	Unassigned
	+1 952 208 5223	Bloomington, United States	Users	Unassigned
	+1 952 222 8948	Bloomington, United States	Service	Unassigned
	+1 952 222 8963	Bloomington, United States	Service	Unassigned
	+1 952 222 8974	Bloomington, United States	Service	Unassigned

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Hot Area:

Statements	Yes	No
Phone number +1 952 222 8948 can be assigned to a user.	○	○
Phone number +1 952 222 8948 can be assigned to a call queue.	○	○
Phone number +1 952 222 8948 can be assigned to a conference bridge.	○	○

Correct Answer:

Statements	Yes	No
Phone number +1 952 222 8948 can be assigned to a user.	○	●
Phone number +1 952 222 8948 can be assigned to a call queue.	●	○
Phone number +1 952 222 8948 can be assigned to a conference bridge.	●	○

QUESTION 5

DRAG DROP

Your company has a trading department and a research department.

The company purchases a Microsoft 365 E5 subscription.

You plan to deploy Microsoft 365 E5 licenses to all users.

You need to block communication between the users in the trading department and the users in the research department.

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Select and Place:

Correct Answer:

Explanation:

Step 1: From the Microsoft Teams admin center, enable scoped directory search.

1: Make sure prerequisites are met Make sure prerequisites are met

*

 Scoped directory search: Before you define your organization\\'s first IB policy, you must enable scoped directory search in Microsoft Teams. Wait at least 24 hours after enabling scoped directory search before you set up or define IB policies. (Step 1)

Step 3: Provide admin consent for the Information Barrier Processor.

*

 Admin consent for IB in Microsoft Teams: When your IB policies are in place, they can remove non-IB compliance users from Groups (for example, Teams channels, which are based on groups). This configuration helps ensure your organization remains compliant with policies and regulations.

*

Etc.

Step 2: Make a list of segments to define.

2: Segment users in your organization

In this step, you\\'ll determine what IB policies are needed, make a list of segments to define, and define your segments. Defining segments doesn\\'t affect users, it just sets the stage for IB policies to be defined and then applied.

Step 4: Create information barrier policies

3: Create IB policies

When you create your IB policies, you\\'ll determine whether you need to prevent communications between certain segments or limit communications to certain segments. Ideally, you\\'ll use the minimum number of IB policies to ensure your

organization is compliant with internal, legal, and industry requirements.

4: Apply IB policies

IB policies aren\\'t in effect until you set them to active status and apply the policies.
