QUESTION 2

Your company has a main office in Dallas.

The company has a Microsoft Teams Phone deployment.

Currently, the default audio conferencing bridge is set to a phone number that has a Miami area code.

In the Microsoft Teams admin center, you get a number in the Dallas area code.

You need to assign the new Dallas number as the default audio conferencing bridge.

What should you configure in the Microsoft Teams admin center?

A. the Conference bridges node under Meetings

B. the Networks and locations node under Locations

C. the Phone numbers node under Voice

D. the Auto attendants node under Voice

Correct Answer: A

Reference: https://docs.microsoft.com/en-us/microsoftteams/change-the-phone-numbers-on-your-audio-conferencing-bridge

QUESTION 3

You have a Microsoft Teams Phone deployment.

You need to provide two users with the ability to share a single phone number for inbound and outbound calling.

What are two ways to achieve the goal? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

A. call queues

B. call forwarding

C. group call pickup

D. call delegation

E. call park

Correct Answer: AC

QUESTION 4

You have a Microsoft Teams Phone deployment that uses Direct Routing.

You connect a new Session Border Controller (SBC).

You need to verify that all the voice features work as expected for calls that traverse the SBC

What should you use?

A. the SIP Tester client script

B. Microsoft 365 network connectivity test tool

C. Microsoft Teams Network Assessment Tool

D. Microsoft Remote Connectivity Analyzer

Correct Answer: A

QUESTION 5

You have a Microsoft Lync Server 2013 deployment.

Some users use Enterprise Voice.

You plan to migrate to Microsoft Teams.

You need to design a migration solution. The solution must minimize the impact on end users during the migration.

What should you include in the solution?

A. Migrate all users directly from Lync Server 2013 to Teams.

B. Migrate the Enterprise Voice users from Lync Server 2013 to Microsoft Skype for Business Server 2019. and then migrate the Enterprise Voice users to Teams.

C. Migrate all other users directly from Lync Server 2013 to Teams.

D. Perform an in-place upgrade from Lync Server 2013 to Microsoft Skype for Business Server 2015, and then migrate all users to Teams.

Correct Answer: D
