QUESTION 3

You need to ensure that all users in your tenant have access to the earliest release of updates in Microsoft 365. You set the organizational release preference to Standard release. Select the correct answer if the underlined text does not make the statement correct. Select "No change is needed" if the underlined text makes the statement correct.

- A. Targeted release for entire organization
- B. No change is needed

C. Targeted release for select users

D. First release

Correct Answer: A

Standard release is the default setting. It implements updates on final release rather than early release. First release is now called Targeted release. Targeted release is the early release of updates for early feedback. You can choose to have individuals or the entire organization receive updates early.
