QUESTION 1

An IT manager is looking for a solution that can easily trace back suspicious Internet browsing to particular users at a company. Which of the following can BEST provide this functionality?

- A. Layer 3 managed switch
- B. VPN concentrator
- C. Load balancer
- D. Content filter

Correct Answer: D

:

QUESTION 2

Which of the following BEST describes the definition of DHCP?

- A. DHCP is utilized to dynamically lease IP addresses to hosts.
- B. DHCP is utilized to statically lease IP address to hosts.
- C. DHCP is utilized to permanently lease IP address dynamically to hosts.
- D. DHCP is utilized to permanently lease IP address statically to hosts.

Correct Answer: A

Because DHCP server maintains a database of available IP addresses and configuration information. When the server receives a request from a client, the DHCP server determines the network to which the DHCP client is connected, and then allocates an IP address or prefix that is appropriate for the client, and sends configuration information appropriate for that client
