QUESTION 1

A customer plans to decommission a Cisco UCS B-Series server, as part of this action, the customer disassociates the service profile from the currently assigned server.

Which action is performed by UCS Manager in this scenario?

- A. It reboots the primary Fabric Interconnect immediately
- B. It recalculates the power allotment for each blade server within the chassis
- C. It reboots the secondary Fabric Interconnect immediately
- D. It powers down the server

Correct Answer: A

QUESTION 2

You are designing a multi-site FlexPod Datacenter solution for a customer using MetroCluster over IP. The design should include a single set of compliant switches for the environment.

Which two features are required to satisfy this requirement? (Choose two.)

- A. support for Fibre Channel ports
- B. support for an MTU size of 9216
- C. support for unified switch ports
- D. support for QoS

Correct Answer: AD

QUESTION 3

During a design meeting, a customer states that their goal is to deliver continuous availability across both network and storage during business continuity events. The customer has two data centers that are 80 km apart, and they want the configuration to be as logically unified across both sites as possible.

In this scenario, which FlexPod data protection solution achieves this goal?

- A. FlexPod with NetApp Cloud Sync
- B. FlexPod with NetApp SnapCenter

C. FlexPod with NetApp MetroCluster IP

D. FlexPod with NetApp FabricPool

Correct Answer: C

QUESTION 4

A customer is unhappy with their current data center infrastructure. They want to purchase a FlexPod system to replace it. The customer asks you to help them understand the benefits of Solution Support to determine which support model would suit them best.

In this scenario, which three statements are correct? (Choose three.)

A. You have a single point of contact for all cases

B. Solution Support is a lower-cost support option

C. There is no need to diagnose the problem before you call support

D. Customers do not need to open tickets; all issues are automatically reported

E. Issues are solved by solution experts

Correct Answer: ABE

QUESTION 5

You are asked to evaluate SaaS-based monitoring solutions for your FlexPod environment. Other than being SaaS-delivered, selection criteria include full lifecycle management, environment automation, and the ability to monitor third-party storage that is salted for retirement.

In this scenario, which product satisfies the requirements?

A. NetApp Cloud Insights

B. NetApp OnCommand Insight

C. Cisco UCS Manager

D. Cisco Intersight

Correct Answer: A
