## QUESTION 1

Refer to exhibits. Exhibit A.

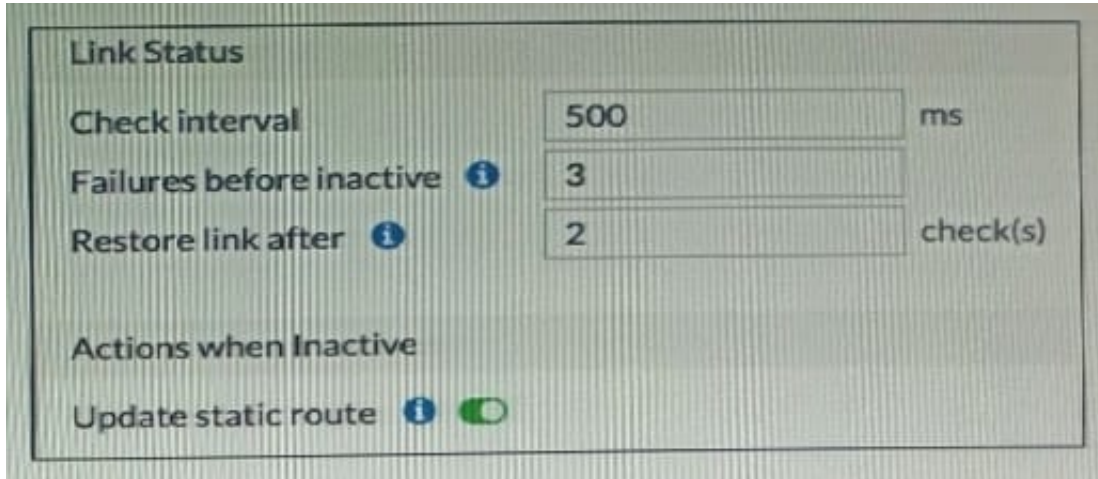

Exhibit B.

Interfaces	Gateway	Cost	Download	Upload
port1	10.200.1.254	0	0 bps	0 bps
port2	10.200.2.254	0	0 bps	0 bps

Destination	Gateway IP	Interface	Status
<b>IPv4 (4)</b>			
0.0.0.0/0		SD-WAN	Enabled
10.0.20.0/23	192.168.1.1	port1	Enabled
100.64.1.0/24	192.168.73.2	port2	Enabled
172.20.0.0/16	192.168.73.2	port2	Enabled

Exhibit A shows the SD-WAN performance SLA and exhibit B shows the SD-WAN interface and the static routes configuration. Port1 and port2 are member interfaces of the SD-WAN, and port2 becomes a dead member after reaching the failure thresholds. Which statement about the dead member is correct?

- A. Subnets 100.64.1.0/23 and 172.20.0.0/16 are reachable only through port1
- B. SD-WAN interface becomes disabled and port1 becomes the WAN interface
- C. Dead members require manual administrator access to bring them back alive
- D. Port2 might become alive when a single response is received from an SLA server

Correct Answer: A

**QUESTION 2**

An administrator is troubleshooting VoIP quality issues that occur when calling external phone numbers. The SD-WAN interface on the edge FortiGate is configured with the default settings, and is using two upstream links. One link has random jitter and latency issues and is based on a wireless connection.

Which two actions must the administrator apply simultaneously on the edge FortiGate to improve VoIP quality using SD-WAN rules?

- A. Select the corresponding SD-WAN balancing strategy in the SD-WAN rule.
- B. Choose the suitable interface based on the interface cost and weight.
- C. Use the performance SLA targets to detect latency and jitter instantly.
- D. Place the troublesome link at the top of the interface preference list.
- E. Configure an SD-WAN rule to load balance all traffic without VoIP.

Correct Answer: AC

---

**QUESTION 3**

Which statement about using BGP routes in SD-WAN is true?

- A. Learned routes can be used as dynamic destinations in SD-WAN rules.
- B. You must use BGP to route traffic for both overlay and underlay links.
- C. You must configure AS path prepending.
- D. You must use external BGP.

Correct Answer: A

---

**QUESTION 4**

Refer to the exhibit.

```
config system settings
set firewall1-session-dirty check-new
end
```

Based on the exhibit, which two statements about existing sessions on FortiGate after a firewall policy change, are true? (Choose two.)

- A. The old sessions terminate after a policy change.

- B. Existing sessions remain unchanged after a policy change
- C. All sessions are flushed by FortiGate after a policy change
- D. FortiGate re-evaluates new packets after a policy change

Correct Answer: BD

#### QUESTION 5

Refer to the exhibit.

```
FortiGate # diagnose firewall shaper traffic-shaper list name VoIP_Shaper
name VoIP_Shaper
maximum-bandwidth 6250 KB/sec
guaranteed-bandwidth 2500 KB/sec
current-bandwidth 93 KB/sec
priority 2
overhead 0
tos ff
packets dropped 0
bytes dropped 0
```

Which two statements about the debug output are true? (Choose two)

- A. The debug output shows per-IP shaper values and real-time readings.
- B. FortiGate provides statistics and reading based on historical traffic logs.
- C. Traffic being controlled by the traffic shaper is under 100 KB/s.
- D. This traffic shaper drops traffic that exceeds the set limits.

Correct Answer: CD
