QUESTION 1

The Deployment Manager client can be installed on which of the following Operating Systems?

- A. Windows XP Pro
- B. Mac
- C. Linux
- D. Android

Correct Answer: A

QUESTION 2

When working with a CandDS 5.0 customer who is unsure what database/schema was selected during the CandDS configuration, which of the following steps would you suggest to gather this information?

- A. Review the setupinfo.xml file from the Platform directory.
- B. Review the deploy.properties from the Deploy directory.
- C. Review the Installation Details option within the About section of the Deployment Manager client.
- D. Review the '\\Download version and system details\\' option at the bottom of the About section within Browser-based Deployment Manager.

Correct Answer: D

QUESTION 3

Which of the following tools are used to perform the CandDS 5.0 installation into the File System?

- A. InstallAnywhere
- B. IBM Installation Manager
- C. IBM Update Supervisor
- D. InstallShield

Correct Answer: B

QUESTION 4

A customer created a parallel CandDS installation on a separate server, using a copy of the production repository database. She can login to the repository, objects are being displayed, but most jobs fail to run and cannot be edited. What could be a likely cause?

- A. During the installation, the customer chose to Discard Existing Data data rather than Preserve Existing Data.
- B. Application server has not been started.
- C. The save/restore process only migrated part of the content repository data.
- D. Additional packages, existing in the production environment, have not been reinstalled after installation of the parallel environment.

Correct Answer: D

QUESTION 5

Which of the following is a true statement regarding User Preferences?

- A. User Preferences apply to the user ID that is currently logged into the server.
- B. Default Permissions option allows a user to setup default permissions for existing files and folders.
- C. Subscriptions Recipient option allows the user to control which SMTP server to use.
- D. User Preferences applied to a Group are inherited by the User.

Correct Answer: A
