Record the justification for an action taken on a case.

Design Approach

Assignment Instruction

Intent-driven UI

Assignment notification

Audit note

QUESTION 3

You have been asked to create a pie chart that shows the number of cases each manager has created. A list report contains columns for manager name, case ID, and office. How do you configure the list report in order to create the pie chart?

- A. Summarize the manager name column.
- B. Group the manager name column.
- C. Group the case ID column.
- D. Summarize the case ID column.

Correct Answer: D

QUESTION 4

When processing an auto accident claim, the system requires three approvals: Approval from the adjuster who inspected the car, approval from the medical administrator who provided medical care to the insured, and approval from the insurance agent who verified the claim.

How do you implement this requirement so each approver can work independently?

- A. Create three assignments and route to the appropriate approver.
- B. Create an approval step with cascading approval.
- C. Route to a workbasket where all three roles have access.
- D. Create business logic to route to the different approvers.

Correct Answer: B
