QUESTION 3

You want to allow users to use an application on a mobile device, even if the device is not connected to a network.

Which configuration option supports this requirement?

A. Simulate external data sources when the application if offline

B. Source drop-down lists using data pages

C. Configure UI elements to use native controls on mobile devices

D. Source repeating layouts using report definitions

Correct Answer: B

QUESTION 4

A health plan application includes a process for surgical procedure requests. Currently, there is an evaluation subprocess in which a physician reviews the diagnosis and enters the recommended procedure and its urgency. The request then

advances to a medical director who analyzes the feedback and approves the appropriate procedure. The health care organization has created a new requirement, which states that three physicians can perform the evaluation independently.

Only two evaluations are necessary to advance the case to the medical director.

How do you configure the process so that the request can continue to be processed if only two of the three physicians approve the order?

A. Use a Some join condition

B. Use a decision table

C. Use an Any join condition

D. Use a validate rule

Correct Answer: A

QUESTION 5

A health plan application includes a process for surgical procedure requests. Currently, there is an evaluation subprocess in which a physician reviews the diagnosis and enters the recommended procedure and its urgency. The request then advances to a medical director who analyzes the feedback and approves the appropriate procedure. The health care organization has created a new requirement, which states that three physicians can perform the evaluation independently. Only two evaluations are necessary to advance the case to the medical director.

In order to allow the three physicians to review the orders in parallel, how would you configure the process?

A. Add a cascading approvals shape that is called by the evaluation subprocess

B. Add a Split Join shape, add a list of physicians, and call the surgical procedure request process

C. Add a Split For Each shape, add a list of physicians, and call the evaluation process

D. Add a Split Join shape, add a list of physicians, and call the evaluation process

Correct Answer: B
