DRAG DROP

Select and move the five steps required to implement single sign-on (SSO) authentication in a pega application to the SSO authentication implementation steps column. (choose five)

Select and Place:

Correct Answer:

QUESTION 5

Which of the following Skin rule customizations help satisfy the states requirements?

A. In the Skin rule, configure the importance field for each column included in a repeating layout.

B. In the Skin rule, configure the Column Layout and specify the width of the sidebar on desktops.

C. In the Skin rule, configure the Column Layout and specify how the sidebar appears on tables and smart phones.

D. In the Skin rule, configure the style for all application field values, paragraphs, and correspondence records.

Correct Answer: A

Explanation: You are designing an accessible Pega application for French and English- language users who require assistive technologies. The application must be able to run from desktop, tablet, and mobile phone browsers. Also, several screens require the ability to save changes and refresh the screen.
