## QUESTION 1

Based on the information in the chart. If you execute the rule when .Dept=Engineering. which version does Pega use?

Rule Ver.	Circumstance
01-01-01	None
01-01-01	.Dept = Engineering
01-01-15	None
01-01-20	.Dept = Engineering
01-01-25	None, Base rule selected
01-01-35	None

- A. 01-01-01, None
- B. 01-01-35
- C. 01-01-01, .Dept=Engineering
- D. 01-01-20, .Dept=Engineering

Correct Answer: B

## QUESTION 2

What advantage does skimming provide over lock and roll as a versioning option?

- A. Skimming carries blocked rules forward. Lock and roll does not carry blocked rules forward.
- B. Skimming is most efficient for major and minor updates. Lock and roll is most useful for patches.
- C. Skimming saves checked out rules. Lock and roll does not save checked out rules.
- D. Pega provides a skimming wizard but not a lock and roll wizard.

Correct Answer: B

## QUESTION 3

A travel reservation servicing case includes a service level for responding to requests. The service level intervals vary according to passenger status, class of service, and fare type. Which implementation satisfies this requirement?

- A. Create a single property circumstanced rule and a when rule
- B. Create a multivariate circumstanced rule and a when rule
- C. Create a multivariate circumstanced rule, a circumstance definition, and a circumstance template
- D. Create a single property circumstanced rule

Correct Answer: A

---

## QUESTION 4

An application must support two case types. The case types are released into production on separate schedules.

Given these requirements, which specialization approach do you use?

- A. The case types are organized in the same class. Each case type is managed with a unique ruleset.
- B. All rules are managed in the same ruleset and circumstanced by case type.
- C. The case types are organized in unique classes. Each case type is managed with a unique ruleset.
- D. The case types are organized in unique classes. Both case types are managed with a single ruleset.

Correct Answer: C

---

## QUESTION 5
