QUESTION 1

Select two suitable statements about postgresql.conf configuration.

A. A line that starts with ! (exclamation mark) is interpreted as a comment.

B. You can have different parameters for the same option to configure each database differently.

C. The timing of when a change in any value is reflected is different depending on the configuration parameter.

D. All options have no default values. Therefore, all of them must be set specifically and thoroughly.

E. As a boolean value, any of the following can be used: TRUE, FALSE, ON, OFF, YES, NO, 0.1

Correct Answer: CE

QUESTION 2

SQL statements were executed in the following order.

CREATE TABLE book (

id VARCHAR(21), title TEXT NOT NULL, price INT,

UNIQUE (id), CHECK (price > 0)

);

INSERT INTO book VALUES (\\'4-12345-678-9\\', \\'SQL book\\', 2300); --(1) INSERT INTO book (title, price)

VALUES (\\'PostgreSQL\\', 3000); --(2) UPDATE book SET id = \\'4-12345-678-9\\' WHERE id IS NULL; --(3)

DELETE FROM book WHERE price

While executing, select the first location that generates an error.

A. (1)

B. (2)

C. (3)

D. (4)

E. No error is generated.

Correct Answer: C

QUESTION 3

The following are statements related to the postmaster. Select one statement that is incorrect.

A. postmaster is a server process that receives connections from clients.

B. The "pg_ctl start" command boots up postmaster.

C. It is not possible to boot up the postmaster process by directly executing the postmaster command.

D. One postmaster process controls one database cluster.

E. The "pg_ctl stop" command stops postmaster.

Correct Answer: C

QUESTION 4

Choose the most suitable statement about user management of PostgreSQL. Note: the version of PostgreSQL is 8.0.

A. Usernames not registered in the operating system cannot be registered as PostgreSQL users.

B. To create a new user for PostgreSQL, the "newuser" command is used.

C. PostgreSQL cannot be in a state where multiple users exist at the same time.

D. If you create a user that has permission to create other users, that user will become a superuser that is not subject to any access restriction checks.

E. To delete an existing user for PostgreSQL, "deleteuser" command is used.

Correct Answer: D

QUESTION 5

Select two suitable statements regarding the pg_dump command.

A. pg_dump is an SQL command.

B. Only the user who executed initdb can execute pg_dump.

C. pg_dump can create a backup while postmaster is running.

D. pg_dump can create a backup while postmaster is stopped.

E. pg_dump can create a backup of a specified table.

Correct Answer: CE
