QUESTION 1

DRAG DROP

You are managing a custom model through its lifecycle in AI Builder.

You need to determine the earliest status the model should be in to perform actions.
What is the earliest status required for each action? To answer, drag the appropriate statuses to the correct actions. Each status may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to

view content.

NOTE: Each correct selection is worth one point.
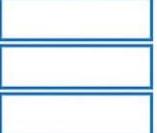

Select and Place:

Statuses

Draft	Trained	Published

Answer Area

Action	Status
Test the performance of the model.	
Use the model in Power Apps and Power Automate.	
Build the model and add data.	

Correct Answer:

Statuses

Answer Area

Action	Status
Test the performance of the model.	Trained
Use the model in Power Apps and Power Automate.	Published
Build the model and add data.	Draft
