QUESTION 1

A company plans to move an on-premises customer service data management system to a cloud-managed solution.

The customer service application must be replaced by a model-driven application. The company uses Microsoft SQL Server Integration Services (SSIS) packages to move data from the on-premises database system to a third-party enterprise

resource planning (ERP) system.

You need to replace the SSIS packages for data transfer.

What should the company use in place of the packages to move the data?

A. Microsoft Azure Data Lake

B. Power Virtual Agents

C. Data Migration Framework

D. Power Platform connector

Correct Answer: C

Data Migration Framework is a tool that can be used to migrate data from on-premises to cloud solutions such as Azure SQL Database and Azure SQL Data Warehouse, which can help to migrate data from SQL Server to ERP system on

cloud.

It is one of the option to consider along with A and B.

A. Power Platform connector and B. Microsoft Azure Data Lake are also valid options to consider depending on the specific requirements and use cases. It is important to evaluate the different options and choose the one that best fits the company\\'s needs and goals for the data migration.

QUESTION 2

You create a Power Virtual Agents chatbot for a company. The chatbot will use common channels and services by which the company communicates with customers. You need to determine which services the chatbot can be used with or added to.

Which two services can the chatbot be used with? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

A. Facebook

B. Power BI

C. Microsoft Azure Event Grid

D. Microsoft Azure Service Bus

QUESTION 3

HOTSPOT

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Hot Area:

Statement	Yes	No
Sharing a model-driven app and sharing a canvas app both send an email with the link to the app to the users.	○	○
Administrators assign Power Platform security roles and permissions identically for canvas apps, model-driven apps, and shared apps.	○	○
You must publish both personal and system views before a user may consume them.	○	○

Correct Answer:

Statement	Yes	No
Sharing a model-driven app and sharing a canvas app both send an email with the link to the app to the users.	○	◉
Administrators assign Power Platform security roles and permissions identically for canvas apps, model-driven apps, and shared apps.	○	◉
You must publish both personal and system views before a user may consume them.	○	◉

QUESTION 4

A company creates canvas apps for its sales team.

A user creates a canvas app from a data source.

You need to determine the screens created.

Which three screens should you identify? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

A. welcome

B. edit/create

C. browse

D. details

E. delete

Correct Answer: BCD

QUESTION 5

DRAG DROP

A company is building a Power Apps portal.

You need to select out-of-the-box portal types to meet the company\\'s requirements.

Which portal types should you use? To answer, drag the appropriate portal types to the correct requirements. Each portal type may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to

view content.

NOTE: Each correct selection is worth one point.

Select and Place:

Portal types

partner portal	portal from blank
community portal	customer self-service portal

Answer Area

Requirement	Portal type
Collaboratively onboard new suppliers and distributors.	Portal type
Publish a blog post announcing new suppliers.	Portal type

Correct Answer:

Portal types

portal from blank

customer self-service portal

Answer Area

Requirement	Portal type
Collaboratively onboard new suppliers and distributors.	partner portal
Publish a blog post announcing new suppliers.	community portal

Box 1: Partner portal

A partner portal allows every organization with resellers, distributors, suppliers, or partners to have real-time access to every stage of shared activities.

Box 2: Community portal

A community portal leverages peer-to-peer interactions between customers and experts to organically grow the catalog of available knowledge from knowledge base articles, forums, and blogs as well as providing feedback through comments

and ratings.

Incorrect Answers:

Portal from blank: Create a website to share data with external and internal users. This template comes with sample pages to get you quickly started.

Customer self-service portal: A customer self-service portal enables customers to access self-service knowledge, support resources, view the progress of their cases, and provide feedback.
