QUESTION 1

Senior management is frustrated at the lack of a detailed implementation plan that shows exactly when the project will end and when all requirements will be met. The team has been using a rolling wave planning approach so far on the project.

How should the agile practitioner explain to senior management the benefits of this approach?

- A. It ensures a consistent level of details is available in the project schedule
- B. It prevents a wasteful buildup of requirements inventory that may never be processed
- C. It provides a concrete definition of project scope, cost and duration
- D. It allows the team to lock down the stories to be included in a release

Correct Answer: A

QUESTION 2

As user stories are developed, what should be done to record and update acceptance criteria?

- A. Add more user stories.
- B. Use sprint retrospectives.
- C. Update current user stories.
- D. Update new tasks in the project plan.

Correct Answer: C

QUESTION 3
