## QUESTION 1

A deployment contains some machines that are not part of the domain. The Accounting and Sales departments are two of these.

How can a policy of WildFire notification be applied to Accounting, and a policy of WildFire prevention be applied to Sales, while not affecting any other WildFire policies?

- A. Create the rules and use the Objects tab to add Accounting and Sales to each rule they should apply to.
- B. Create a condition for an application found on an Accounting machine. Use that condition for the Accounting groups rule, and create the rule for Sales without any conditions.
- C. Create two rules for WildFire: one for prevention, and one for notification. Make sure the Accounting rule is numbered higher.
- D. Create group-specific registry entries on endpoints. Use these registry entries to create conditions for the WildFire rules.
