QUESTION 1

What is an advantage of next-generation SD-WAN over legacy SD-WAN solutions?

- A. It enables definition of the privileges and responsibilities of administrative users in a network.
- B. It allows configuration to forward logs to external logging destinations, such as syslog servers.
- C. It steers traffic and defines networking and security policies from an application-centric perspective, rather than a packet-based approach.
- D. It provides the ability to push common configurations, configuration updates, and software upgrades to all or a subset of the managed appliances.

Correct Answer: C

QUESTION 2

Which two prerequisites must an environment meet to onboard Prisma Access mobile users? (Choose two.)

- A. Zoning must be configured to require a user ID for the mobile users trust zone.
- B. Mapping of trust and untrust zones must be configured.
- C. BGP must be configured so that service connection networks can be advertised to the mobile gateways.
- D. Mobile user subnet and DNS portal name must be configured.

Correct Answer: AD
