Correct Answer: A

QUESTION 2

A business analyst needs to create an app showing sales data. The app requirements are as follows:

Compare sales for the current year (CY Sales) versus last year (LY Sales)

CY Sales must always be displayed in blue

LY Sales must always be displayed in yellow

Which steps should the business analyst take to meet these requirements?

- A. 1. Create a KPI with two measures, CY Sales and LY Sales
- 2. Write an IF expression to set the appropriate colors for each measure
- B. 1. Create CY Sales and LY Sales measures as master items
- 2. Write an IF expression to set the appropriate colors for the master items
- C. 1. Create CY Sales and LY Sales measures as master items and set the required color for each measure
- 2. Create one KPI from the two master item measures
- D. 1. Create CY Sales and LY Sales measures as master items and set the required color for each measure using Value colors
- 2. Create two gauges, one for each measure and set the color for each appropriately

Correct Answer: B

QUESTION 3

A printing company has several requirements for a new Qlik Sense app: Report of daily work orders Total number of print jobs Print jobs based on region Total number of print jobs by month

The app will be used by executives, sales managers, sales representatives, and press workers.

Which sheets should a business analyst build to meet these requirements?

- A. Sheet 1: Details page that shows the daily print jobs in a table Sheet 2: Dashboard with a KPI visualization of total print jobs, and a bar chart with print jobs by region Sheet 3: Visualizations that show the count of print jobs by month and press worker
- B. Sheet 1: Details page that shows the daily print jobs in a table Sheet 2: Dashboard with a KPI visualization of total print jobs by month, customer, sales representative, and region Sheet 3: Report page that shows the daily print jobs
- C. Sheet 1: Dashboard with a KPI visualization of total print jobs, and a bar chart with print jobs by region Sheet 2: Visualizations that show the count of print jobs by month, customer, sales representative, and region Sheet 3: Details page that shows the daily print jobs in a table
- D. Sheet 1: Dashboard with a KPI visualization of total print jobs, and a bar chart with print jobs by region Sheet 2: Details page that shows the daily print jobs in a table Sheet 3: Details page that shows the daily print jobs

Correct Answer: B

QUESTION 4

A company has customers in 16 countries. The majority of the customers are in Germany.

A business analyst creates a filter pane for Country, and wants "Germany" listed first. The rest of the countries should be listed in alphabetical order.

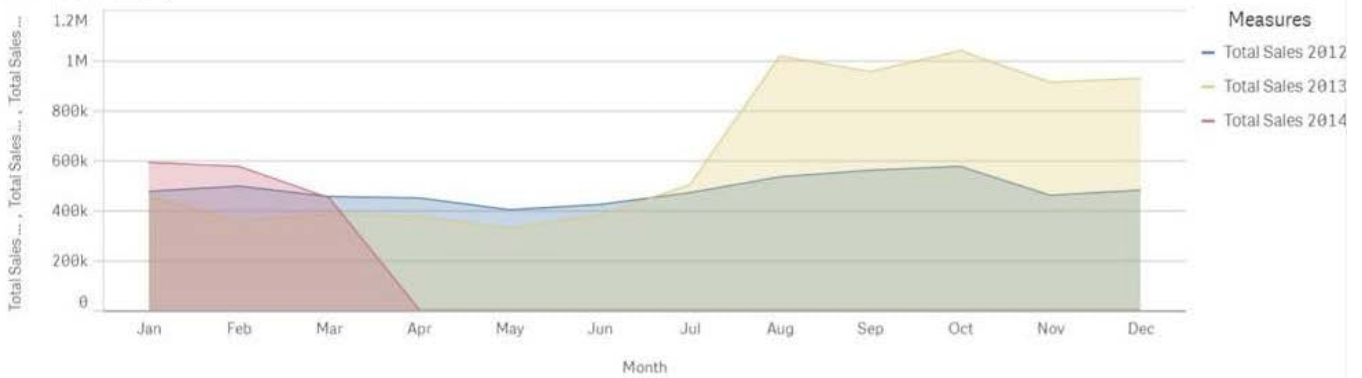

Which method should the business analyst use to meet this requirement?

- A. Edit the sheet, select Chart, Properties panel, Custom sorting, then select Germany
- B. Edit the sheet, select Chart, Properties panel, Custom sorting, then click Descending Frequency
- C. In the data manager, edit the table, select Country, then select Order from the data profiling card
- D. In the data manager, edit the table, select Country, then select Order from the column header

Correct Answer: C
