QUESTION 1

What action should an administrator take based upon a vulnerability scan report?

A. Upload the report to Redhat support and wait for feedback.

B. Open it in a web browser, if a definition is evaluated as true then the system is not affected by these.

C. The administrator should patch the system based upon the findings of the report.

D. Open the report in a web browser, definitions evaluated as true mean that the system is affected by that vulnerability. Contact IBM support for guidance.

Correct Answer: D
