QUESTION 1

Which of the following is a common challenge imposed by the adoption of service-orientation? Select the correct answer.

- A. Service-orientation introduces the need for design standards, which need to be followed and enforced.
- B. Service-orientation requires that you commit to one vendor platform, which can limit your product options.
- C. Service-orientation requires that services be protected from repeated reuse, which can reduce potential ROI.
- D. Service-orientation introduces the need to make all implementation details about each service publicly available, which can lead to the misuse of this information by some project teams.

Correct Answer: A

QUESTION 2

The service-orientation principle primarily concerned with ensuring the runtime behavioral predictability of a service is: Select the correct answer.
