Correct Answer: AD

QUESTION 4

A company intends bring work from anywhere culture in a bid to improve productivity. Their sellers use wide variety of devices with different form factors. The company currently uses one page layout to display opportunity record details to

the sellers. The Regional Vice President of Seles is complaining about incorrect alignment of data in opportunity records, making it difficult for some sellers.

Which steps are recommended to rectify this?

- A. Use a visualforce override for Opportunity view action, identify the form factor onLoad action and display relevant layouts based on form factors,
- B. Use Dynamic Form to define different field sections applicable for different form factors of devices.
- C. Use a custom LWC override for Opportunity view action, identify form factor onLoad action and display relevant layouts based on form factors.

Correct Answer: A

QUESTION 5

Universal Containers (UC) stores basic employee information in a custom Employee object (OWD - Public Read Only). There are a few sensitive fields that need restricted access (salary, grade level, last performance rating).

Other than field level security, what other options are available to make these fields accessible to the Human Resource team?

- A. Create a new custom object controlled by parent and a Master-Detail relationship to Employee to store new restricted information.
- B. Change OWD of Employee custom object to private and a Lookup self-relationship to store only new restricted information.
- C. Create a new custom object with private OWD and Lookup relationship to Employee to store new restricted information.
- D. There are no other options besides using field level security.

Correct Answer: C
