Correct Answer: B

QUESTION 2

If a cell is placed in a hypertonic solution, what will happen to the cell?

- A. It will swell.
- B. It will shrink.
- C. It does not affect the cell.
- D. It will stay the same.

Correct Answer: B

A hypertonic solution is a solution with a higher particle concentration than in the cell, and consequently lower water content than in the cell. Water moves from the cell to the solution, causing the cell to experience water loss and shrink.
