QUESTION 1

Your manager is planning next year's capital expense budget and asks if it's possible to know when the infrastructure components in your cloud will run out of capacity and therefore need upgrading. You tell him you can get that information using vCenter Operations Manager.

Which vCenter Operations Manager Super Metric badge would you look under to see the time remaining and capacity remaining for your infrastructure components?

- A. Performance
- B. Efficiency
- C. Health
- D. Risk

Correct Answer: D

QUESTION 2

You need the ability to quickly react to business changes and acquisitions by deploying virtual machines in a variety of cloud environments. Which vCloud product will solve this problem?

- A. vCloud Connector
- B. vCloud Automation Center
- C. vCloud Director
- D. vCloud Networking and Security

Correct Answer: B

QUESTION 3

Management at your company has asked you to give a presentation outlining why you want to move to a private cloud. As part of this presentation you are explaining vCloud Director and its capabilities. Which of the following describes something vCloud Director can do for your cloud project?

- A. Provide Fault Tolerance (FT) protection for your cloud workloads
- B. Move workloads between a private and a public cloud
- C. Allow multiple tenants to run on the same vSphere Cluster
- D. Move your cloud to a remote site when disaster strikes

Correct Answer: C

QUESTION 4

You have been contracted to architect a vCloud solution for one of your clients. You decide to build two clouds: one for development and one for production.

Which product will allow you to move workloads from the development cloud to the production cloud?

- A. vCloud Director
- B. VMware NSX
- C. vCloud Connector
- D. vFabric Suite

Correct Answer: C

QUESTION 5

Your development team needs to create a deployment specification one time and then be able to deploy the app many times across private, public, and hybrid cloud environments. The app must also work seamlessly across a variety of hardware specifications.

Which vCloud Application Director feature will you use to create a deployment plan which can be reused?

- A. App Template
- B. Road Map
- C. Blueprint
- D. Deployment Guide

Correct Answer: C
