- A. Using catalogs
- B. Using archive bit
- C. By modified time
- D. Windows Change Journal

Correct Answer: C

---

## QUESTION 4

Backup Exec allows administrators to make copies of deduplicated backup sets and transfer them to a different Backup Exec 2014 server. The transfer process is optimized, meaning only unique blocks (those not already contained in the deduplication disk storage device of the destination server) are copied.

What is the proper name of this ability?

- A. optimized deduplication
- B. optimized replication
- C. optimized duplication
- D. optimized synchronization

Correct Answer: C

---

## QUESTION 5

An administrator installs a new Robotic Library, but is unable to see the library in the Backup Exec console.

Which two steps should the administrator perform to ensure the Robotic Library can be used in Backup Exec? (Select two.)

- A. verify the library is working properly in the Windows Device Manager
- B. enable the Tape Drive Support option in Backup Exec
- C. confirm the library is listed in the Hardware Compatibility List
- D. enable debugging, then look for the library again
- E. install the Library Expansion Option license

Correct Answer: BD
