Correct Answer: A

QUESTION 5

If there are two administrators logged in at the same time to the SmartConsole, and there are objects locked for editing, what must be done to make them available to other administrators? Choose the BEST answer.

- A. Publish or discard the session.
- B. Revert the session.
- C. Save and install the Policy.
- D. Delete older versions of database.

Correct Answer: A

To make changes available to all administrators, and to unlock the objects and rules that are being edited, the administrator must publish the session. To make your changes available to other administrators, and to save the database before installing a policy, you must publish the session. When you publish a session, a new database version is created. When you select Install Policy, you are prompted to publish all unpublished changes. You cannot install a

policy if the included changes are not published.
