QUESTION 1

You are writing an order release agent and need to listen for an order modification event triggered by an integration update to the order release.

What is the impact to the agent process if you set the "before persist" flag on the ORDER ?MODIFIED event?

A. OTM will perform the agent actions but will not persist any changes to the object.

B. OTM stages the new data, will perform the agent actions, will not allow you to use certain actions.

C. OTM will not persist the new data but will perform the agent actions as long as they do not require persisting the new data.

D. OTM stages the new data but will not perform the agent actions if the data is not persisted properly.

E. OTM will persist the new data immediately after the agent is triggered and then perform the agent actions.

Correct Answer: A
