---

## QUESTION 3

You are designing a Business Process. In that process, you want to create a Form that has a required Data Element, which would indicate a specific facility in a specific country. There are thousands of facilities around the globe. You want to simplify the selection process for your users.

How is this accomplished.

- A. Create a Data Element that includes auto-population of facility names.
- B. Create a Text Box with auto-lookup functionality that fills in the facility name.
- C. Create a Data Picker that auto-populates country after the user selects a particular facility.
- D. Create a Data Picker that filters out all facilities in a drop-down menu after the user selects a particular country.

Correct Answer: D

---

## QUESTION 4

Identify one benefit of using Folder Structure templates.

- A. to manage or control project documents
- B. to assign permissions to documents
- C. to store project documents or deliverables
- D. consistent document management protocols across projects

Correct Answer: A

---

- A. Document level
- B. Project level
- C. Shell level
- D. User level
- E. Company level

Correct Answer: BC

---

## QUESTION 14

You are an administrator supporting a specific Shell. You have been asked to report on named users assigned to specific Groups within that Shell for a management review. You use the Export User Group Assignment File functionality to complete this task.

However, while reviewing this report, you inadvertently notice that some of the users have not been exported in this report.

What is the reason for this?

- A. The users are On Hold.
- B. The users do not have an email address.
- C. The users are not assigned to Groups.
- D. The users have no permissions assigned.

Correct Answer: A

---

## QUESTION 15

You are making changes to users in Groups in a shell. You use the Import User Groups Assignments File functionality to complete this task. You identify two errors during this update process for two users.

What are two reasons for the errors? (Choose two.)

- A. The user and Company combination is not valid.
- B. The Group name on the import file is not a valid Group in the Shell.
- C. Permissions are not valid for the Shell.
- D. Partner Companies do not exist within the Shell.
- E. Scheduled import conflicts with scheduled export process.

Correct Answer: BC
