QUESTION 1

Which two types of iSCSI adapters require VMkernel networking configuration? (Choose two.)

- A. software
- B. in-guest
- C. independent hardware
- D. dependent hardware

Correct Answer: AD

QUESTION 2

Which two statements are true when vSAN and vSphere HA are enabled in the same cluster? (Choose two.)

- A. Any vSAN datastore mounted on more than one host can be used as a Heartbeat datastore.
- B. The vSAN storage network is used for vSphere HA traffic.
- C. The Management network is used for vSphere HA traffic.
- D. Any datastore mounted on more than one host can be used as a Heartbeat datastore, except vSAN datastores.
- E. Any datastore mounted on more than one host can be used as a Heartbeat datastore.

Correct Answer: BD

QUESTION 3

What are two requirements in order to restore a Resource Pool Tree from a snapshot? (Choose two.)

- A. A restore can only be performed on the same cluster the snapshot was taken from.
- B. vSphere DRS must be turned on.
- C. vSphere DRS must be turned off.
- D. A restore can only be performed on a vSphere DRS cluster within the original vCenter Server.

Correct Answer: AD

QUESTION 4

To prevent possible failures or issues during a vSphere upgrade, which component should be upgraded first?

- A. virtual machines

- B. datastores
- C. ESXi Hosts
- D. vCenter Server

Correct Answer: A

QUESTION 5

Which three statements are correct regarding booting an ESXi Host from Fibre Channel SAN? (Choose three.)

- A. Direct connect topology is supported.
- B. Multipathing to a boot LUN on an active-passive array is supported.
- C. ESXi hosts do not require local storage.
- D. Each host must have its own boot LUN.
- E. Hosts can share one common boot LUN.

Correct Answer: ACD

Explanation: <https://docs.vmware.com/en/VMware-vSphere/6.5/com.vmware.vsphere.storage.doc/GUID8FAD881D-7A00-43C9-AB69-66DC7816968C.html>

When you use boot from SAN with multiple ESXi hosts, each host must have its own boot LUN. If you configure multiple hosts to share the same boot LUN, ESXi image corruption is likely to occur. Multipathing to a boot LUN on active-passive arrays is not supported because the BIOS does not support multipathing and is unable to activate a standby path. The correct answers are:- ABCD. Direct connect topology is supported. Each host must have its own boot LUN. ESXi hosts do not require local storage.

QUESTION 6

Which two encryption keys does the host use when encrypting virtual machine files? (Choose two.)

- A. Public Key Infrastructure Encryption Key (PKI)
- B. Master Encryption Key (MEK)
- C. Data Encryption Key (DEK)
- D. Key Encryption Key (KEK)

Correct Answer: CD

QUESTION 7

Which three types of Content Libraries exist within vSphere 6.5? (Choose three.)

- A. Remote Content Library
- B. Published Content Library
- C. Local Content Library
- D. Shared Content Library
- E. Subscribed Content Library

Correct Answer: BCE

QUESTION 8

Which are two supported storage primitives for VAAI NAS? (Choose two.)

- A. block zeroing
- B. Reserve Space
- C. hardware assisted locking
- D. Full File Clone

Correct Answer: AC

QUESTION 9

Storage capabilities be populated in what two ways? (Choose two.)

- A. Datastores can advertise their capabilities through VASA.
- B. Datastores can advertise their capabilities through VAAI.
- C. The administrator can use tags to describe capabilities.
- D. Default capabilities are provided by vCenter Server.

Correct Answer: AC

QUESTION 10

Which are the two storage options for a Content Library when using the VMware vCenter Appliance? (Choose two.)

- A. FTP
- B. NFS
- C. CIFS
- D. VMFS

Correct Answer: BD

When you create a local library, you can store its contents on a datastore managed by the vCenter Server instance or on a remote file system. Depending on the type of storage that you have, you can use Virtual Machine File System (VMFS) or Network File System (NFS) for storing content on a datastore.

QUESTION 11

The virtual machine log rotation size can be changed for all VMs by which two interfaces? (Choose two.)

- A. vSphere Web Client
- B. ESXi host client
- C. esxcli
- D. PowerCLI

Correct Answer: AD

QUESTION 12

ds-lab-vsan14.dsl.vmware.com- Edit Multipathing Policies for naa.600000e00d11000000111cd200110000

Path selection policy

vmhba39:C3: T0:LO	◆ Active	ign.2000-09.com.tnjitsy.storage-sysl	0
vmhba39:C2: T0:LO	◆ Active (I/O)	ign.2000-09.com.tnjitsy.storage-sysl	0

OK Cancel

Examine the LUN properties that are shown in the exhibit. Which action should be taken to utilize all active paths?

- A. Change PSP to Most Recently Used
- B. No action required. All paths are already utilized.
- C. Change PSP to Fixed.
- D. Change PSP to Round Robin.

Correct Answer: D

The host uses an automatic path selection algorithm rotating through all active paths when connecting to active-passive arrays, or through all available paths when connecting to active-active arrays. RR is the default for a number of arrays and can be used with both active-active and active-passive arrays to implement load balancing across paths for different LUNs.

QUESTION 13

Which two components are necessary for the first boot of a host using Auto Deploy? (Choose two.)

- A. Host Profiles
- B. Bulk licensing
- C. vSphere Authentication Proxy
- D. TFTP
- E. DHCP

Correct Answer: DE

QUESTION 14

vSphere 6.5 introduced MAC learning capabilities for VMware's virtual switches. What three benefits will it provide? (Choose three.)

- A. Reduced memory consumption
- B. Increased network throughput.
- C. Prevent packet flooding inside the vSwitch
- D. Reduced consumption of extra CPU cycles.

Correct Answer: ACD

QUESTION 15

What are three benefits of using a few large-capacity LUNs instead of many small-capacity LUNs? (Choose three.)

- A. More flexibility to create virtual machines without adding new LUNs.
- B. More flexibility for resizing virtual disks.
- C. Less wasted storage space.
- D. Better performance because there is less contention for a single volume.
- E. Fewer VMFS datastores to manage.

Correct Answer: ABE
