## QUESTION 1

Which of the following describes the sequence of the Global Protect agent connecting to a Gateway?

- A. The Agent connects to the Portal obtains a list of Gateways, and connects to the Gateway with the fastest SSL response time
- B. The agent connects to the closest Gateway and sends the HIP report to the portal
- C. The agent connects to the portal, obtains a list of gateways, and connects to the gateway with the fastest PING response time
- D. The agent connects to the portal and randomly establishes a connection to the first available gateway

Correct Answer: A

## QUESTION 2

**URL Filtering Profile**

Name: URLPolicyEnforcement

Description:

Safe Search Enforcement  Log container page only

Block List:

Action: block

Allow List:

For the block list and allow list enter one entry per row, separating the rows with a newline. Each entry should be in the form of "www.example.com" and without quotes or an IP address (http:// or https:// should not be included). Use separators to specify match criteria - for example, "www.example.com/" will match "www.example.com/test" but not match "www.example.com.hk"

Category	Action
<input type="checkbox"/> abortion	alert
<input type="checkbox"/> abused-drugs	alert
<input type="checkbox"/> adult	alert
<input type="checkbox"/> alcohol-and-tobacco	alert
<input type="checkbox"/> auctions	alert
<input type="checkbox"/> business-and-economy	alert
<input type="checkbox"/> computer-and-internet-info	alert
<input type="checkbox"/> content-delivery-networks	alert
<input checked="" type="checkbox"/> Custom URL Cat *	override
<input type="checkbox"/> dating	alert

\* indicates a custom URL category

Check URL Category
