100% Passing Guarantee
100% Money Back Assurance

Following Questions and Answers are all new published by IBM Official Exam Center

-  **Instant Download** After Purchase
-  **100% Money Back** Guarantee
-  **365 Days** Free Update
-  **800,000+** Satisfied Customers

QUESTION 1

What are the key tenets of a hybrid cloud?

- A. Interoperability, scalability, and portability
- B. On-demand self-service, controlled zone network access, and measured service
- C. Usable, collaborative, and extensible
- D. Logging, auditing, and network isolation

Correct Answer: A

QUESTION 2

What describes a Public Gateway?

- A. It is a service that distributes connections to VPC-hosted web sites evenly across zones
- B. It provides an encrypted network tunnel between the VPC and on-premises networks for management
- C. It enables communication to the internet for all virtual server instances on the attached subnet
- D. It is configured through rules to allow traffic to reach the network interface of attached VSIs

Correct Answer: C

QUESTION 3

What are two use cases for Internet of Things devices? (Choose two.)

- A. Manufacturing Supply Chain
- B. Predictive Maintenance
- C. Asset Tracking
- D. Financial Services Reconciliation
- E. eCommerce Fulfillment

Correct Answer: AB

QUESTION 4

When building a solution that requires an intelligent search service that will deliver specific answers to questions while also serving up an entire document for exploration, which IBM Cloud service should be used?

- A. Knowledge Catalog
- B. Watson Discovery
- C. Knowledge Studio
- D. Watson Explorer

Correct Answer: B

QUESTION 5

What is required before creating and using toolchains that contain certain tool integrations?

- A. A Continuous Delivery service
- B. The Creator role permissions
- C. A Kubernetes cluster
- D. A container repository

Correct Answer: A

QUESTION 6

What is a challenge of Serverless Cloud Computing in low-latency financial applications?

- A. Containers may need to cold start resulting in delays
- B. Serverless containers cannot record the logs required for financial auditing
- C. Long processing transactions can have hidden direct and indirect costs
- D. Requires new security paradigms and best practices

Correct Answer: D

QUESTION 7

What is a type of Continuous Delivery pipelines and how are they specified on IBM Cloud?

- A. Tekton pipelines are specified in YAML; Classic pipelines are specified graphically
- B. Legacy pipelines are specified with XML; NextGen pipelines are specified in JSON
- C. Simple pipelines are specified with XML; Complex pipelines are specified in YAML
- D. Tekton pipelines are specified in XML; Codewind pipelines are specified in XMI

Correct Answer: A

QUESTION 8

According to NIST, what are the five essential characteristics of the cloud?

- A. On-demand self-service, broad network access, resource pooling, rapid elasticity, and measured service
- B. Networks, firewalls, storage, applications, and services
- C. Platform as a service, bring your own software license, ability to reply applications over the internet, software as a service, and private network
- D. On-demand network access, dedicated pool of computing resources, direct attached storage, rapid provisioning, and self service

Correct Answer: A

QUESTION 9

Which IBM Db2 service provides full administrative access in IBM Cloud?

- A. Db2 Managed
- B. Db2 Hosted
- C. Db2 Warehouse
- D. Db2 Service

Correct Answer: B

QUESTION 10

What is a multi-zone region?

- A. A region that hosts network, computing, and storage resources for its deployed services and applications
- B. A region that achieves zero failures across its data centers
- C. A region that is comprised of a single active zone and multiple standby zones
- D. A region that is comprised of three or more zones that are independent of each other to ensure that single failure events affect only a single-zone

Correct Answer: D

QUESTION 11

What is Salesforce?

- A. A full stack cloud platform that spans public, private, and hybrid environments
- B. A Software-as-a-Service offering that focuses on client relationship management
- C. Enterprise software and applications for ERP, CRM, HR, and Finance running in the cloud
- D. A flexible cloud platform for building, testing, deploying, and managing Microsoft- and Linux-based applications

Correct Answer: B

QUESTION 12

What is a benefit of Public Cloud?

- A. Offers the most significant economies of scale
- B. Offers control of internal IT resources
- C. Controls and automates deployments and updates
- D. Offers controlled access and greater security measures customized to specific organizational needs

Correct Answer: A

QUESTION 13

Which advantages are provided by IBM Cloud's databases?

- A. Makes more accurate predictions, automate decisions and processes
- B. Easily connect applications and data across multiple clouds
- C. High availability, enhanced security, and flexible, scalable performance
- D. Easily analyze data and build machine learning models

Correct Answer: C

QUESTION 14

Power Systems Virtual Servers on IBM Cloud supports which two operating systems? (Choose two.)

- A. Windows Server
- B. IBM
- C. VMware ESX
- D. z/OS
- E. AIX

Correct Answer: BE

QUESTION 15

Which two statements describe Kubernetes? (Choose two.)

- A. Orchestrates deployments only to public clouds
- B. A container orchestration platform
- C. Deploys and manages containers with automated rollouts and rollbacks
- D. A sole project hosted by CNCF
- E. An open-source container runtime that is only supported by IBM cloud

Correct Answer: BC
